Further, Future1coin tokens do not promise any guaranteed or perceived return to its holders either automatically or through the work of any other party. Future1coin tokens are used to enable purchase of services within the Future1coin platform. No full or partial ownership of the Future1coin platform can be claimed by mere ownership of Future1coin Tokens; regardless of the amount or quantity of the purchase.

### Disclosure , Representation and Warranties

Future1coin does not make or purport to make any representation or warranty or undertaking in this White Paper or in connection of the Future1coin initial token sales, to any person, including any representation, warranty or undertaking relating to the truth, completeness and accuracy of the information in this White Paper.

You represent and warranty that:

You agree that Future1coin tokens are not securities, collective investment schemes or business trusts

You agree to furnish personal information and documents which may be requested by Future1coin for the purposes of conducting KYC i.e customer due diligence, and that any information furnished by yourself is true and accurate, and that you have not withheld any material information;

You, your associates, your businesses enterprises (in which you are beneficial owner) or family members are not on any sanctions or terrorist list issued by the United Nations or any other jurisdiction and have not committed any previous criminal offences, and that you have not used any proceeds of crimes or tax offences (whether belonging to you or otherwise, and whether directly or otherwise) to purchase Future1coin tokens.

You understand Future1coin is not providing you with any investment or financial advice, that you are acting of your own and have sought your independent financial advice where appropriate;

You fully understand all of the risks associated with the purchase of the Future1coin token and voluntarily take all of these risks, including the possibility of losing part or all of the funds spent on the acquisition of Future1coin.

F1C TOKEN IS NEITHER AN ASSET, NOR A SECURITY. It is a utility token that shall be used in the Company's FUTURE1COIN ecosystem to access it, to utilize its functions, and to pay transaction or other fees associated with the use of the FUTURE1COIN platform.

F1C Tokens do not have any rights, uses, purpose, attributes, functionalities, or features, expressed or implied, outside of the FUTURE1COIN ecosystem. Purchase, ownership, receipt, or possession of F1C Tokens carries no rights, express or implied, other than the right to use such tokens as a means to participate, interact, or transact on the Company's platform. In particular, Buyer understands and accepts that F1C Tokens do not represent or confer any ownership right or stake, share, security, or equivalent rights. They also do not confer any right to receive future revenue shares, dividends, other payments, intellectual property rights, or any other form of participation in or relating to the Company and its corporate affiliates, other than any rights relating to the provision and receipt of services from Company, subject to limitations and conditions in this Agreement. The holders of F1C tokens are only entitled to use FUTURE1COIN services as described in the Company's White Paper .Although F1C Tokens may be sold, they are not intended to be a digital currency, security, commodity, a swap on a currency, security, or commodity, or any kind of financial instrument.

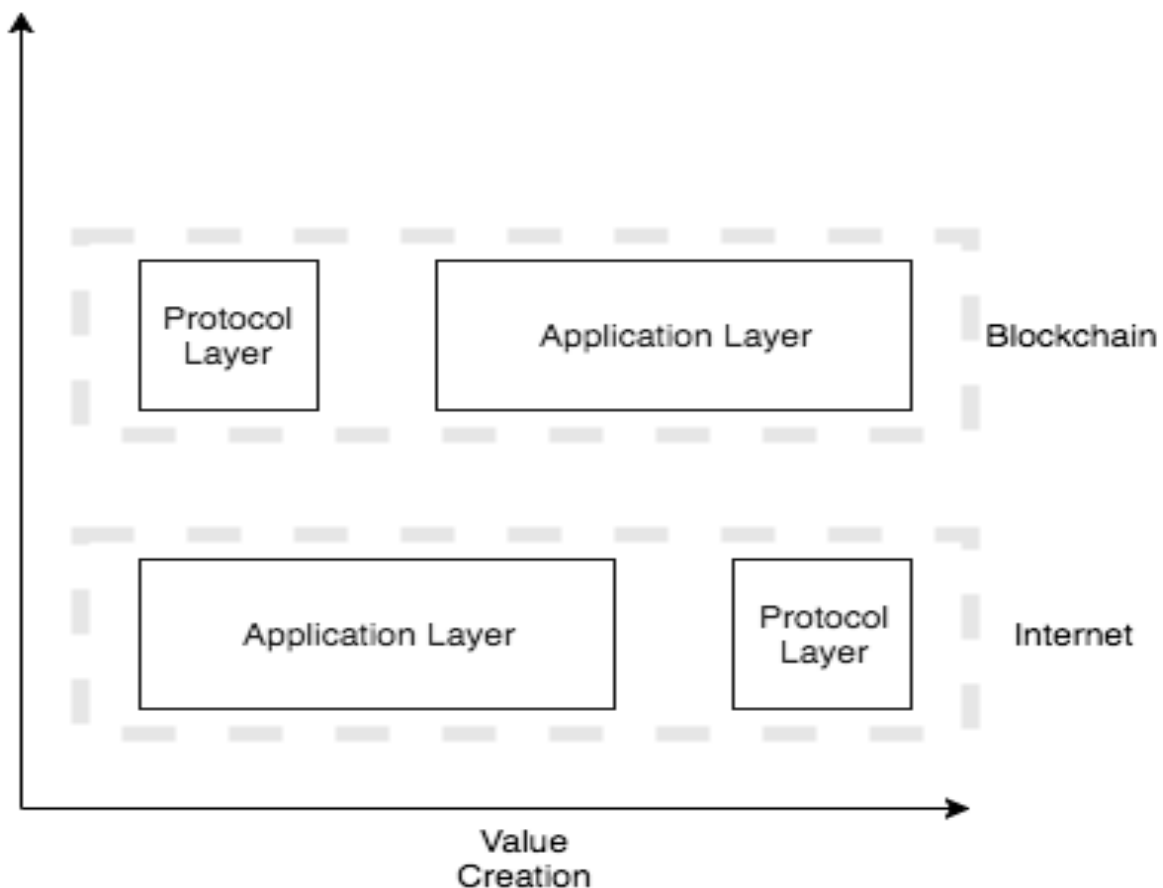

## ABSTRACT

With the ever-growing demand in the world of Cryptocurrencies, and blockchain technology, markets are becoming more active and are opening up to newer possibilities affiliated with web 2.0. Similarly, increased vibrations of awareness have created a ripple in the ecosystem which has transformed into a wave of Cryptocurrencies, trading exchanges, wallets, smart contracts and much more. Unlike traditional markets, users get liquidity, 24X7 accessibility, no-to-minimal regulatory control and exponential augmentation potential in blockchain technology. These distinct features lure users, both amateur and leaders, towards Cryptocurrencies and Crypto-markets. The figures till 2<sup>nd</sup> January 2018 corroborate the exodus of investment which has been done across the globe. Crypto-market capital as on the said date stands at \$642billion which is the ever-highest in the history of Cryptocurrency.

The market capitalization without the popular “Bitcoin” is \$409billion, making for almost 65% of the global cryptocurrencies in the world. Thus, it highlights the entry, existence of other altcoins and the acceptance of blockchain technology, irrespective of any speculations.

These immense valuations in the blockchain space emerge from the protocol layer, as opposed to application layer, which created Billion Dollar giants like Facebook and Airbnb

# Market Capitalization Excluding Bitcoin

The graphs below provide a clear indication of the growth of cryptocurrency market in the past 12 months. People across the globe look at cryptocurrency as a lucrative opportunity. Novice users have started exposing themselves to Cryptocurrency exchanges and market places.

## Total Market Capitalization

However, the understanding about this space and knowledge on its intricacies is a major gap in this industry. The biggest dare is the knowledge loop for the users, the time and energy required to gather quality information, availability of trading platforms under one single roof, presence of investing and marketing tools for trading, rating, listing and other such functionalities like forex and copy trading.

Therefore, a large number of potential users, users are still to benefit from this community. Even for the beginners or veteran crypto enthusiasts, the availability of a single platform which can provide them the latest or real-time information on Cryptocurrency exchanges, ICOs, ratings, and open availability of professional Crypto-Traders who are ready to render their services like- copy trading are either limited or absent. Novice users hence feel left alone and do not take much risk, being stuck at the back seat when it comes to active participation, trade and contribute to ICOs.

Though cryptocurrency users are bullish about 2018, which is evident from a recent report by blockchain platform- “Waves”, which states that 77% of users are likely to increase their exposure to cryptocurrencies, the fact still remains that around 83% people across the globe are not familiar with Cryptocurrencies. The information on altcoins and Cryptocurrency markets are kept limited to- Cryptocurrency Exchanges, ICO rating and listing websites, or social media platforms like Facebook, and Google.

Future1Coin is here to fill this gap by providing a comprehensive blockchain platform with world-class features offering real-time knowledge on all types of Cryptocurrencies, exchanges, wallets, ICO ratings. Future1Coin ensures an environment which is decentralized, safe, transparent, reliable and progressive.

Future1Coin, will be a platform for Forex & Cryptocurrency Knowledge, Trading, ICO's etc. It will also offer copy-trade service, ICOs ratings, host conferences, and provide escrow services to ensure post-ICO governance for appropriate use of funds. It will also be an ICO marketing platform, your ICO marketing team will get the facility of marketing the ICO from Future1Coin Dias. Novice investor or trader will benefit, by following or copying the best-in-industry trading strategies from professional traders. All this implies that from novice to experts you need not visit any other site, platform or expert. Future1Coin envisions itself to be a singular marketplace providing all tools and functionalities required to participate in the world of cryptocurrencies.

## Introduction

Inventions and innovations have always had their impact on the world and shifted the ways the systems of the world works. The printing press metamorphosed into the internet today in terms of information distribution without any third party.

Similarly, Blockchain technology is affecting the:

1. Way an average man views money.
2. Way Business is conducted.
3. Cryptocurrency are said to be more secure than conventional financial instruments, eliminating the chances of identity theft and other issues that currently plague fiat based electronic payment infrastructure.

This fintech revolution is such that it takes the power from the governments & banks and gives individual users the control over the object of currency. The decentralization of this technology is thoughtful as it removes the role and additional cost imposed by banks and financial intermediaries in terms of funds transfer and processing.

Also, businesses are utilizing this amazing innovation as it reduces the cost and stress so that organization would focus on maximizing profit and delivery of quality products to customers since the power lies in the hands of its users. Cryptocurrency particularly Bitcoin adoption skyrocketed as soon as businesses started accepting it as a form of payment.

However, despite the innovations in the space, blockchain technology and cryptocurrency still have not achieved widespread adoption in their eight-year lifespan by large, legitimate, legacy corporations that control global commerce because they want to protect their monopolies. This paper highlights the problems we solve and the value we create, as well as our approach.

## Overview of the problem

The cryptocurrency industry does not have a platform that provides users with education on cryptocurrency trading and provide them with opportunities that they can capitalize on. It is also a very volatile industry and people are unable to ascertain the robustness and the potential that a specific Altcoin coin may have. As a result, many users lose money speculating on failing coins or they stick to expensive alternatives.

Also, currently the process of buying cryptocurrencies is a tremendous multi-step hassle. It begins with trying to figure out how to buy Bitcoin from various platforms (e.g. cryptocurrency exchange, Bitcoin ATM machines, website, post etc), sending it to a wallet or an exchange (e.g. HITBTC, Bittrex, Poloniex) and then figuring out how to buy other cryptocurrencies on the exchange or investing in an ICO. These multiple steps can seem complex, intimidating, and incomprehensible in some cases. Even for experienced users with technical knowledge, the process of converting FIAT into digital currencies and vice versa is generally slow, limited, frustrating, and occasionally risky.

Due to these inconveniences, we believe that curious and qualified users are still turning their backs on the crypto-markets and are consequently missing opportunities they would have otherwise seized.

## The Future1coin solution

# DESCRIPTION OF THE PLATFORM

Future1coin has engineered a new global platform that utilizes blockchain technology to:

1. Enable Blockchain & Cryptocurrency Education
2. Learn to trade in over 120 instruments ranging from forex, commodities, indices, equities and cryptocurrencies.
3. Enable users to purchase ICO with a high token rating at discounted prices.
4. Offer Rating services to various ICO & Community Voting Platform.
5. Decentralized Affiliate Platform for ICO to raise funds easily and affiliates to directly communicate with ICO.
6. Forecast Engine & CopyTrade Service.
7. Crypto Exchange , Mining & ICO Launch Services,
8. Smart Contract Development Services.

## Coin Summit, Token Rating

Future1coin is a members-only platform with a unique GPP (Group purchasing power) that allows its members to purchase the best ICO's with high Token Ratings, and at Coin Summits organised by the company and in the market at discounted prices.

## Education

Future1coin is bringing Cryptocurrencies to the Masses by Launching Blockchain-based Universe for Trading, Investing and Education in Digital Currencies.

Do you remember ever being taught how to invest in the markets? There is a financial markets knowledge gap that exists today and Future1coin fills that void by providing education and simplifying forex & cryptocurrency. Education will be provided in association with Powerup Training Dubai UAE based Company Champion Trader Course the Best Forex & Cryptocurrency Education since 2002.

Even though Cryptocurrency market has shown exponential growth, the fact is not many know about it. This is evident from a survey done by “ditto”, a PR firm specializing in Cryptocurrencies and blockchain technology. The same was conducted in Nov’2017 using a Google Survey with approximately 500 people. The age of the participants was above 18years and reveal astounding facts.

- 70% of the respondents were not familiar with Cryptocurrencies.
- 90% of them were not aware of what an Initial Coin Offering (ICO) means.
- 36% thought Cryptocurrencies are alternate to existing currencies.
- 34% thought they are a fad.
- 13% even had the view that Cryptocurrencies are payment for illegal goods or services.
- About 75% of them had heard about “Bitcoin” but were not aware of others.

## CHALLENGE INDUSTRY FACES

- The top reasons which stopped them from adopting Cryptocurrencies were:
  - a. They thought it's a waste of time.
  - b. They were afraid of losing their money.
  - c. The technology was difficult to understand.

One of the major reasons for the challenge industry faces is the lack of knowledge and non-availability of tools which can ensure access to correct and valid information. It is a hindrance for exploiting the potential of Cryptocurrencies which can be tapped across various sectors. The barriers in knowledge accumulation by societies across the globe, which are also the reasons for the resistance faced in the adoption of the Distributed Ledger (DL) Technology or the blockchain technology, are:

- Inadequate knowledge or misconception and understanding of the terminologies, coupled with myths that it's an immature technology that is not meant for mass adoption.
- Lack of awareness on the initial cost for implementation and that early adoption are risky, disrupts the potential business prospects.
- Unobtainable or false data on the improvements and developments happening (or which happened in past), actually pulls back the economic impact of the technology.
- Inaccessible evidence on business gains and the economic impact which the technology has made makes it mysterious.
- Low levels of knowledge leave a gap in understanding as to how Cryptocurrencies are governed.
- Lack of updated news on the changes happening across the globe on regulatory framework also impacts the market.

## NEED OF THE HOUR

The need of the hour is to strategically plan and develop tools and medium that can educate people, community and organisations across the globe .The need for building mediums apart from the existing - Online Courses, Educational events, Conferences and meets are crucial in moving ahead in the industry.

There is requirement for collaboration and strategic partnership between, organisations, blockchain experts, universities, academies and institutes to educate people on the subject. The importance of such association can be understood by the fact that this will not only enhance the awareness of the subject but will also provide business, employment and opportunities to millions of people and professionals. It is believed that there are only 20,000 blockchain developers across the globe who are actively working to build the ecosystem. Many professional firms like- Deloitte, PwC, and KPMG feel that there is a vacuum of required expertise in the Cryptocurrency market and getting one is very difficult.

## CRYPTOCURRENCY EXCHANGE , WALLET & MINING

Future1coin will provide assistance in the development and deployment of bitcoin and other cryptocurrency , wallets , exchanges , mining pool and mining farms globally

## COPY TRADE

Future1Coin brings you Copy Trade Signals. This service allows you to follow and copy trades of Successful Traders in forex and cryptocurrency. You can choose to decide how much you want to copy and when you want to stop copying.

That also means you don't have to continually watch prices to see when to trade, just open an account with future1coin and become part of successful strategies.

## ICO LAUNCH SERVICES

Raising capital through an IPO (initial public offering) is an expensive, time-consuming process. For that reason innovative ideas might never reach market.

Future1coin platform will provide all the required tools and services for running a successful ICO .

Future1Coin Forecast Platform helps with delivering high accuracy Forex & Crypto-forecasts.

## DECENTRALIZED AFFILIATE PLATFORM

Future1coin decentralized affiliate platform the future of marketing allows ICO's to easily raise funds and affiliates to interact directly based on blockchain technology and smart contracts.

## Market Analysis

In the current scenario, there are over 1500 Cryptocurrencies across the globe, which are divided into two classes- Bitcoin and non-Bitcoin with approximately 50% market sizes respectively. Similarly, there are more than one hundred Cryptocurrency exchanges, and the combined market cap is around \$440 billion USD and growing. The trading markets are more than 5000 in number and are spread across the world. On an average around 2000-3000 customers add to these exchanges on daily basis, across the globe. The trading markets of Cryptocurrencies never sleep, and the opportunities to be explored are huge. There are no limitations of any geography and the ecosystem is decentralized. There are platforms which are constantly showcasing the ratings on various ICOs and the availabilities of the respective tokens. But the basic challenge comes when a fresh cryptocurrency user wishes to enter this ecosystem. The entry barriers are knowledge of the system, technological know-how, non-availability of historic data of the trading and so on. Single point availability of knowledge, tools, access to a system which can facilitate in trading is lacking. One needs to check or explore various available options or exchanges to decide and chances are, by the time it is done, further changes happen. Future1Coin nullifies all these issues and offers a one-stop shop platform where cryptocurrency users receive complete dashboard of the exchanges, ICOs and other information which enables them to safely and efficiently conduct trading within the cryptocurrency space. We also provide advanced technical and analytical tools required by experienced traders to make better decisions.

- i) **Discovering relevant & quality information-** The data availability, in today's scenario, is so scattered and unreliable that one cannot use it with complete confidence. Secondly, the content quality and relevance are always questionable, can be illogical and misunderstood. One cannot completely rely on such platform information.
- ii) **Real-time access to market impacting news-** The rates and trading indexes keep changing. Additionally, there are limited sources which can show the real-time changes on a single platform. The user needs to search different websites or interfaces to gather data, which can turn out to be non-real-time. There are chances that the user might lose or block large amounts on delayed and wrong data. Certain impacting news can also impact the volatile prices of Altcoins and hence it is of great importance to constantly receive real-time access to market.
- iii) **Detecting Abnormal market conditions-** The sea of Cryptocurrencies have made it literarily impossible to keep an eye on their movements, and this can result in missing crucial abnormal movements. When unnoticed, these undetected market conditions can be devastating also. One has to depend on their own research or MIS to collect sudden changes due to a rumour or news and act accordingly.

- iv) **Inability to obtain best price execution-** For users getting the best price or sharing the best practice of an expert is not possible in current picture. Various exchanges can offer different rates and hence in a volatile market it becomes a huge challenge for all to find the lowest price to trade.
- v) **Difficult-to-navigate data-** Various techniques are been used by Cryptocurrency users to get an edge in today's scenario. They use crowd sourced analyst research, algorithms, and trading signals to do so. They also employ information received from different social networking sites, blogs, and articles on Cryptocurrency markets. This creates a huge universe of data to scrutinize their choice making it tedious and even unsafe. They actually have to collate the gathered information and make their own strategy, which can be risky keeping in mind the volatile nature of the process.
- vi) **Unanswered Questions-** Usually, there are unanswered questions and also sometimes unauthentic answers which make a new cryptocurrency user or even experts unable to enjoy the whole process of Cryptocurrency trading. Few questions can be-
  1. What does the coin do and what theory is it based on?
  2. What problem the coin can resolve?
  3. What is the reason behind the huge success of the coin?
  4. Is the Historic data available which can show the trail of the large price rise of the coin?
  5. What is the background, track record of the team?

6. Can I get the quantity of coins sold during ICO and at what price?
7. Which platform provides education, Cryptocurrency trading, ICO listing, ICO rating, and Copy-trading on a single platform?
8. What are various options for a novice user?
9. Do any escrow account exists which can facilitate in ICO participation?
10. How various agencies evaluate the authenticity of ICOs, both running and new?

## B.Solution:

- i) **Crowd sourced and curated real-time news database-**  
Future1Coin offers a dais where monitoring, analysing real-time data or news is automatic and you receive instant news, updates from reliable sources. Unlike existing tools, the delivery frequency of market news by Future1Coin is real-time. The news comes to the platform from authentic curators who are greatly incentivized for surfacing high value piece of information. The same is doubly confirmed by the in-house team and community of curators in Future1Coin for the accuracy, relevance and rewarded accordingly.
- ii) **Historical news and impact on price movements-** Whether it's an amateur or an expert; in Cryptocurrency ecosystem, it is crucial to correlate historic data, price movements, impact of news, and sudden elevation in trading volumes. The evaluation can go wrong with a single inaccurate data or absence of minute information costing large amounts. Future1Coin caters all such data for accurate decision making which is equally relevant for a beginner and a specialist.
- iii) **No expert required-** Without the need of an expert you can master the art of trading with Future1Coin.
- iv) **Save on time and money-** With Future1Coin you not only receive information, but also save on crucial time, energy and money.

- v) **Roster enabled Exchange for ICO listings and Ratings-** Future1Coin platform will provide for its user's to buy "Only" good governance ICOs. The same will be doubly secured by Escrow accounts on the platform. The ICO ratings will be based on the data shared by the project teams, which will be authenticated by a team which will be associated with validating and delivering such operations.
- vi) **ICO Marketing Platform-** Future1Coin is unique as it will only showcase the most reliable, highly governed and Safest ICOs only. The moment an ICO is listed on Future1Coin, this feature itself will be an USP not only on the Future1Coin community but in all other platforms. Future1Coin in its development and growth phase will keep ICO rating and ICO listing marketing as a focal point.
- vii) **Strategy Selling and Buying platform-** Novice traders, who are not Crypto-Savvy, or wish to save their time and energy can opt to rent listed strategies by expert traders on Future1Coin platform. The experts can earn strategy fees by listing their successful strategies. Strategy selling and buying is open to all.
- viii) **Wide Spectrum Crypto platform:** Future1Coin platform will showcase the most sort after, top rated, and the widest number of Cryptos and use them to evaluate the best price, real-time data, so that the users benefit the maximum. Future1Coin is not limited to Future1Coin tokens, wallets, and exchange but has distinct features of a multifaceted platform.

## C. Future1Coin Platform:

i) **Fundamental Principles-** Future1Coin works as multipurpose platform for users in a secure, scam proof ecosystem with a sole focal point of safe and highly efficient trading. The various principles behind the platform are:

a. ***Education for better decision making:*** Gathering latest news, rather real-time impactful updates on Cryptocurrency market to enable users to monitor, analyse them, along with charts and graphs, and utilize them to make effective and productive decisions. The information will include storing or highlighting historical news and events as well, which made substantial impact on the movements. The data will be vetted by classified team, and custodian from within the community. Both, the custodian and the news provider will be rewarded for their contributions in the form of tokens. The news or update will be validated based on the accuracy, precision, and pertinence of the news.

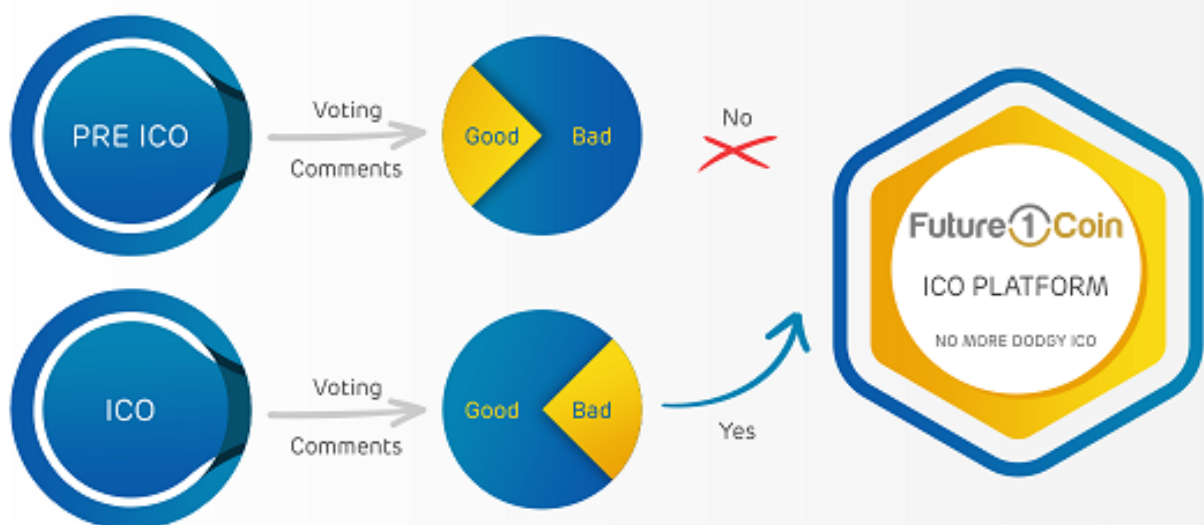

**b. Control Over Various ICO:** In any financial or commercial transaction across the globe there are intermediaries to minimize the risks, avoid fraudulence and negligence. While blockchain technology skips them by virtue of being decentralized, distributed data base, they still cannot control certain flaws in certain aspects. One such aspect is controlling of ICOs by supporters. Today there are hundreds of ICOs which are either launched, are in pre-sale or post-sale phases or exist in the form of new business ideas to raise funds. Once the crowdfunding gets over the funds are in full control of the project team. The supporters cannot influence them or have a control on them which becomes the causes of unscrupulous fundraisers, who finally disappear. There are chances that the ICO company might overestimate their projects and or underestimate the fund raisings. This might result into insufficient funds and closure of the projects. In any both cases the hard-earned money of the supporters and users is lost. Future1Coin provides a platform to answer this problem in the form of “Escrow accounts” for ICO listings. This is a second layer to doubly assure a user of the various listed and rated ICOs on the exchange. The first layer being the “ICO Governance”, described next. The underlying principle in Future1Coin platform is to have safe collection, storage and judiciously distribute the funds of the supporters and avoid any unforeseen losses, attenuate any

risk of unforeseen circumstances by empowering the supporters of the ICO in terms of controls on the project developments.

## ICO Ratings and listings

Like traditional and medieval practice of VC, the world of Cryptocurrency follows the crowdfunding through ICOs. It has become revolutionary in a short period of time. The very fact that more than 200 ICOs have raised \$3billion in 2017 and the conventional equity funding Vs the ICO funding, shows an exponential growth of ICOs. The global figures for equity funding in Q1 2016 was \$179millions. The figures for ICO funding for the same period was \$12million. By Q3 2017 the figures were \$259million and \$1327million for Equity Funding and ICO funding respectively.

### Cryptocurrency and ICO Community Voting System

## ICO Market Breaches \$3 Billion

More than 200 initial coin offerings have raised over \$3 billion so far in 2017

**Bloomberg**

## Conventional Equity Funding To Blockchain Firms Vs. ICO Funding

Global, Millions (\$), Q1 2016-Q3 2017

Source: CB Insights

**BI INTELLIGENCE**

There are hundreds of ICO rating websites or platforms which share the updated list of all active and upcoming ICOs, give their own evaluating parameters and try to serve a well-informed and rational decision-making content to users, which otherwise they will collate from various sources like company websites, discussion forums, or from social media platforms. The limitations of these websites are the real-time information.

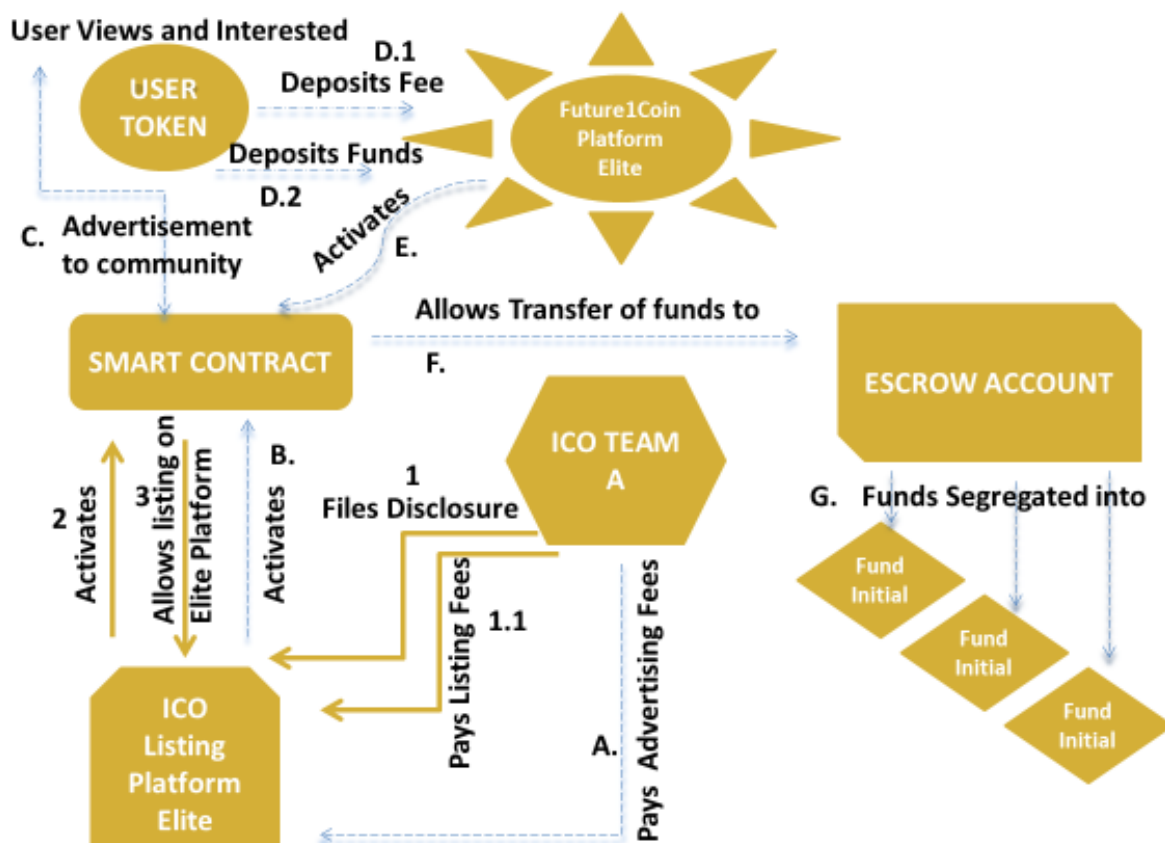

Future1Coin offers a platform where not only ICOs are rated by real-time information (one of the criteria for rating), the various stages of their project are also tracked, like pre-sale, post-sale etc. Future1Coin can also be used as an “Escrow Account” for various ICOs, which can be operated to enforce good governance practices ensuring honest use of funds. Thus, Future1Coin will help you contribute in the right ICO at the right juncture .

## **Escrow Account**

The Escrow functionality on the platform allows ICOs to list themselves and utilize the escrow services to ensure that the company matches all milestones as promised in the white paper. It will serve as a self-regulating protocol, ensuring appropriate use of funds. Once an ICO lists itself, it gets upgraded to Platform Elite. By transferring the required funds and fees activates the smart contract to let him participate in the crowdfunding. The smart contract keeps the fees and transfers the Crowdfunding funds to an “Escrow Account”. The fund is automatically segregated as per the instruction received by the ICO and approved by the user, while activating the smart contract.

The pool is segregated into three funds- **Fund Initial**, **Fund Development** and **Fund growth** which receive some percentage of the fund as directed by the white paper and information collected during due diligence. The Fund Initial is used first once the smart contract is activated. The ICO receives it and completes the set of work defined within a timeframe. The same is reported by them on completion which is shared with the user through emails and via Future1Coin platform. The smart contract, upon receiving the completion report from the ICO team, initiates to activate *Fund Development* with a “Consent Form” from the user by way of “Approval”. If the user approves it in “Yes” the funds in the *Fund Development* are released to the ICO Team. The same process is followed for *Fund Growth* and is funded or closed as per the work done by the core team of the ICO project.

## ICO listing or Rating via Smart Contract

The ICO team, in order to get listed on the platform, needs to disclose the following 20 points and activate the Smart contract. Eventually, this list will enhance as we keep receiving feedback from our community members:

- 1) **Mission, Vision, Aim, Strategies-** The ICO must clarify the objective, problem statement and solution and various reasons for crowdfunding necessity. They must disclose all organizations with their separate objective, if involved. They must also share measurable information so that the validation of good governance can be done.
- 2) **Organizational architecture and Core Team details-** The details of the work and experience of each member of the core team must be shared.
- 3) **Amendment Clause and conditions-**They must share the terms and conditions for any or all kinds of amendments in near future. This is critical for good governance and will be incorporated in the smart contracts as well.
- 4) **Custody Chain-** The ICO team must disclose the details, be it in coded form, of the organisation, individual or bank (in case of fiat currencies) who will hold the private keys to the wallet which stores the proceeds of the Crowdfunding.
- 5) **Marketing activities to promote the ICO-** Details of the promotional activities the ICO team will employ should be shared in detail, specifically any giveaways and their governing rules and regulations.
- 6) **Jurisdiction:** The details of legal incorporation for the organization involved in the crowdfunding.

- 7) Employee and Founder token details-** This must be shared in detail including the percentage and terms and conditions.
- 8) Organisation and Market Tokens-** The complete details or percentage of tokens allocated to the company and the community must be shared including the terms and conditions. The ratio or distribution of the tokens can clarify the authenticity of the ICO- good or bad Governance.
- 9) Share of Advisory Tokens-** The professional details, experience and the amount or percentage of the tokens be shared to advisors be shared to rule out any potential of conflicts of interests.
- 10) Foundation Tokens-** Details of foundation tokens if any to be shared with terms and conditions. This is to identify the correlation of their core mission and objectives of the Crowdfunding.
- 11) Presale Discounts-** Details of any or amount of presale discounts to be shared so that malpractice can be evaluated.
- 12) Currency circulating details-** The total count of available currency and the disclosure of the mining process be shared. This is so that, the availability of currency and mechanism of new currency units to enter the ecosystem and time taken for the same can be presumed.
- 13) Disclose Hard and Soft Cap-** The minimum Crowdsale for ICO to be considered successful and the maximum amount the Crowdsale can receive must be disclosed.
- 14) Details of Agreement-** Disclose the details of various agreements with Cryptocurrency exchanges to list the Cryptocurrency with defined dates and time.

- 15) Token Burning Details-** The details of the left-over tokens with timeframe and mechanism of burning must be shared.
- 16) Smart Contracts-** If case of smart contracts, details of the persons, organisation or individual who audited the smart contracts.
- 17) Terms and Conditions-** The rules and regulations for token sale.
- 18) Announcement of Risks-** Need to declare the risks involved in the ICO.
- 19) Safety Process undertaken-** Must share the safety and security procedures taken by the team to safeguard the interest of the users.
- 20) Track record of existing business-** Must share their current business details with complete track record highlighting the positive trends and benefits.

Once the disclosure gets filed the smart contract activates it to be listed and rated on the ICO dashboard. It also allows them to advertise themselves on the community platform by paying the fees. It also lets users to contribute to ICO by transferring the required funds, using the escrow account, fees and support the Crowdfunding.

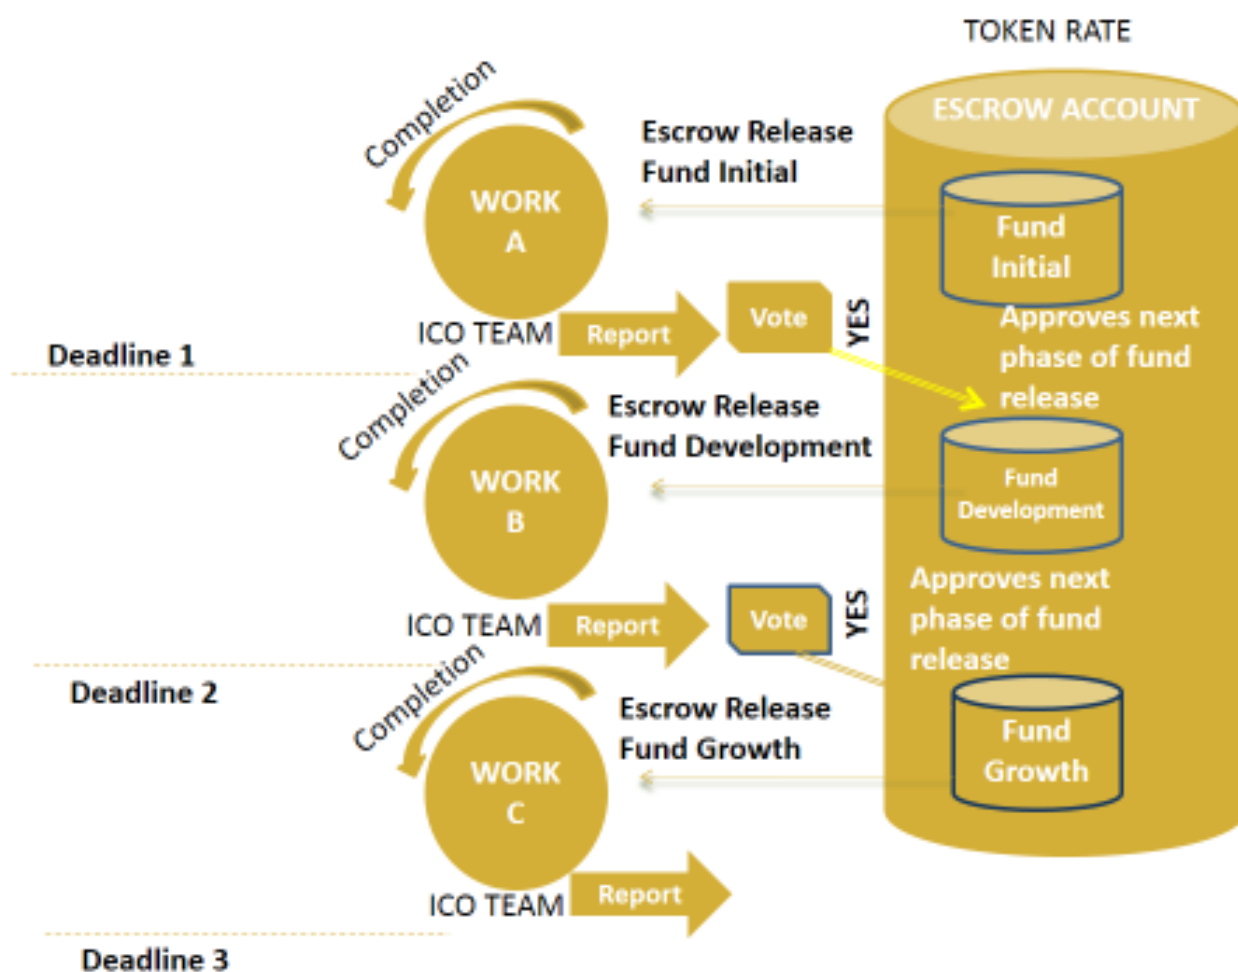

- i) **Issues with ICO ratings and listings-** There are hundreds of ICO rating and listing sites. Primarily they are used to look whether an ICO is promising and honest. They are presented to users to highlight their legitimacy and prevent SCAM. Many exist just to get traffic and earn from marketing them, irrespective of their legality. Almost all of them are to track, analyse, manage, plan, develop or launch ICOs. They are facilitators to users in terms of presenting data or information in various forms or notions, enabling them to make their decisions. None of them, though, will highlight the following-
  - a. **Team Composition:** There are no documented proofs of the core members, their Crypto experience, projects delivered, or any such impactful news on them, which can significantly strengthen the ICOs future. The user has to find out themselves from sources like Google, LinkedIn, Social Media on the team composition.
  - b. **Interactive Platform with the Team:** None of them will present a platform where user can interact directly or get answers of their questions. Though, there are few sites which do provide such facility, but they are not ICO rating sites.

**c. Evaluating Standards:** All such sites have their own set of evaluating standards based on which they rate various ICOs, but none of them make it compulsory for the ICO to share data themselves. That means, the set of standards are of the website and not the ICOs. Any agency which lists an ICO does not make the listing team compulsory to share their authentic data in terms of their use of funds, distribution of tokens, etc. Therefore, these sites or platforms might display both legitimate and fraud ICOs. Users are at high risk when they use such data from ICO rating or listing sites.

Future1Coin provides a platform where the user can trade Crypto as well as use authenticated data on various ICOs. The technology used by Future1Coin makes it compulsory for the ICO to share such authentic data in order to use services like escrow, listing and ratings. Further, the technology on the platform facilitates both novice and expert traders use the platform with complete reliability as the escrow account can be used to rule out any fraudulent ICO. The user gets the surety or trust of highly managed and governed ICOs and the crowdfunding is made successful. Only when the ICO “Rosters” themselves on Future1Coin, the escrow gets activated. The ICOs get themselves registered on Future1Coin platform and get benefited as they will receive fast and large contribution, due to the reliability, safety, and good governance factor.

## Future1Coin Potential

Considering the economics of existing ICO products in the market, Future1Coin holds huge potential in terms of total funds, number of contributors, or participating traders. It is seen that in the past products like Copy-trading or escrow services have given tremendous performance. Future1Coin has the unique model of being a multi-product platform with distinct features. With each stage, the trust and confidence in the project will move upwards. Each stage is associated with deadlines of completion of tasks, and simultaneous release of fund from the escrow account for the next stage. Every time the task completion will be reported by the ICO team to Future1Coin and users, “Voting” or approval for release of fund for next phase will be initiated. The same will be considered only when 60% of the Users will “Vote” “Yes”. Hence, the completion of task or adherence to the deadline will for sure build on the reliability, firmness, delivery and conviction of the project and the team. The same can be understood as under:

## TRADING PLATFORM AND COPY TRADING FUNCTIONALITY

### i) **Opportunities**

Future1Coin allows copy-trading which is a win-win for both novice and professional trader. A Novice or new comer in the Cryptocurrency community need not learn the strategies or techniques to trade, he can, just copy-trade by giving a fee in future1coin. A professional trader, who is very unlikely to be found in the ecosystem, can get himself listed on the platform. He can let his successful trading strategies be copied by earning fee. This is a win-win situation for both, expert and novice user.

- ii) **Trader's problems**-The absence of technical knowledge of blockchain ecosystem make expert traders hesitate in establishing their own set-ups and as a result they are unable to capture decent capital, rather limit themselves and narrow the potential success. This is true for both an expert trader and Novice user. They need to gather information from multiple Cryptocurrency Exchanges to evaluate the best price, understand each of the exchange in terms of their presentation and graphic representation to come to a final conclusion. They are unable to strategize as sometimes the latency is inappropriate. This also reduces the chances of liquidity, arbitrage trading or HFT.

Future1Coin facilitates liquidity aggregation by making all Cryptocurrencies available on its platform, the platform will gather best price from top exchanges and act or suggest accordingly. That means, you do not have to research for different Crypto assets on different exchanges, as you get all under single roof. In other words, availability of combined liquidity, less slippage, and possibilities of executing larger trades is made easy only at Future1Coin. You save on time, cost, and better algorithmic strategies.

Future1Coin platform will allow trading of multiple Cryptocurrencies using quotes from different exchanges. This implies information on al

Cryptocurrencies on a real-time basis for quick and effective execution.

- iii) **Simplest form of Crypto-trading for Novice users:** Future1Coin allows experts crypto-traders to benefit, but at the same time simplifies the marketplace for novice users. It is evident that novice traders cannot strategize by themselves. Therefore, the best possible way is to follow experts.

Future1Coin facilitates to locate, evaluate and finalize from hundreds of industry top traders and copy their strategies for trading, using Future1Coin Smart Contracts and tokens. They get the flexibility of choosing from different strategy providers to copy-trade at the same time. Therefore, they are not stuck in just one strategy.

The Strategy providers with increasing number of followers increase their success. With improving track record, they even can multiply their fees, with complete security and build on their professional status as Crypto-trader Expert.

- iv) **Copy Strategies-** An expert trader registers his strategy on Future1Coin Platform Elite, using smart contract. A user opts for Copy-trading via the Subscription Platform Elite, activates a smart contract, and transfers the required fees, and funds to the platform. The fees are shared with the platform and the Expert trader. The funds are kept with the platform for running the strategy. A user can opt to copy multiple strategy providers simultaneously for better performance and liquidity.
  
- v) **How it will benefit Users-** Future1Coin will let participants use their time, energy and money effectively, as most of the work like collection of real-time data with impact of any event, analysis in the form of price-charts and representations from top Crypto-exchange and so on, will be done by the platform. They just have to decide the function and sit back for the system to work for it. It will be like thousands of traders working for each participant. Novice users need not learn the technicalities of trading and can immediately start copy-trading. They can even buy tokens of new ICOs securely and with complete knowledge of the project. Further, the escrow facilities of Future1Coin will give the command of buying on their hands, unlike in any other ICO listing platform.

- vi) **How it will benefit Expert traders-** Expert traders will be compensated for sharing their expertise and strategies with Novice users. In addition, they can also benefit from the sequential release of funds in ICO, ensuring liquidity of funds. They can act as news-feeder and share relevant and recent news or event updates and get compensated for their effort . They can diversify their portfolio only on Future1Coin platform. To maximise their fees they can create numerous “Prototypes” of their strategies.

### **How the Platform Works**

There will be a subscription stage which will be categorized into two- *Subscription Platform Standard* and *Elite Subscription Platform*. While the former will require the user to buy the token the later will require them to use token to upgrade into. The former will give access to-

- Wide range of trading instruments like forex, commodities, equities and the Wallet facilities. They will get access to an exchange where feeds from top-rated Crypto-exchanges will be highlighted.
- News feed from real-time Cryptocurrency market.
- Get access to ICO rating services which will have exhaustive ratings from top rating services and platforms.

The *Elite Subscription* once upgraded to, will allow the users to receive all the above along with:

- Custom news feeds highlighting the latest updates on Crypto market, alongside price data on all the altcoins they are interested in. They get subscription to daily email notifications and summaries on their choice of cryptocurrencies, trading signals, in-depth research, analysis and sentiment analysis.
- They get access to Strategy buying or selling; Copy-trading services.
- ICO Escrow accounts.
- ICO rating and listing services with the filter of Governance.

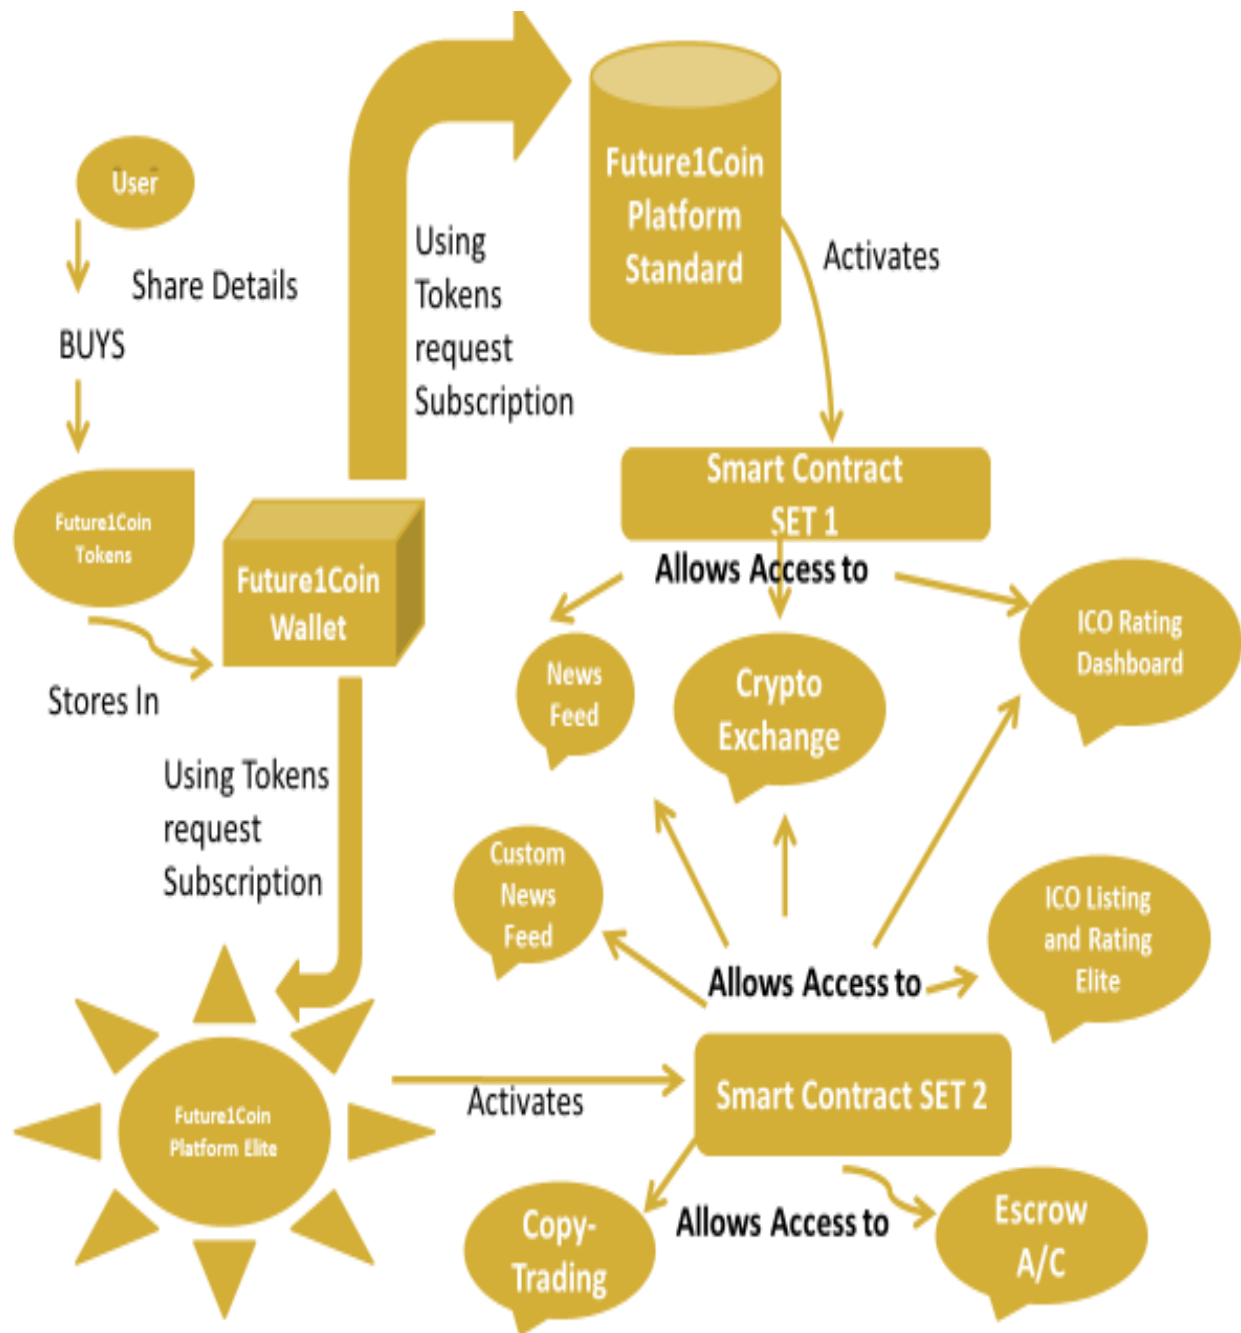

**Step-by-Step access-** The linear process of the various functions takes the support of Smart contracts.

- a. **Subscription Platform Standard/ Elite:** The user registers on Future1Coin by disclosing his details and buys Future1Coin tokens, which can be stored in “Future1Coin Wallets”. The user can use these tokens on different instruments like- news feed, Crypto-trading, and Crypto Exchange or Subscription Platform Elite. Based on his interest in any one, two, three or all of them, funds and fees are transferred and respective Smart Contracts are activated to allow access to that instrument. For example, a user can just opt for Custom News feed. Or a user

can just show interest in Copy-trading. Or, a user can opt to receive all the services. There are two sets of Smart Contracts- Set A and Set B.

**Set A:** Activates any one, two or all of the following instruments- Basic News Feeds, ICO basic rating dashboard, Crypto-Exchange or Trading, based on the request.

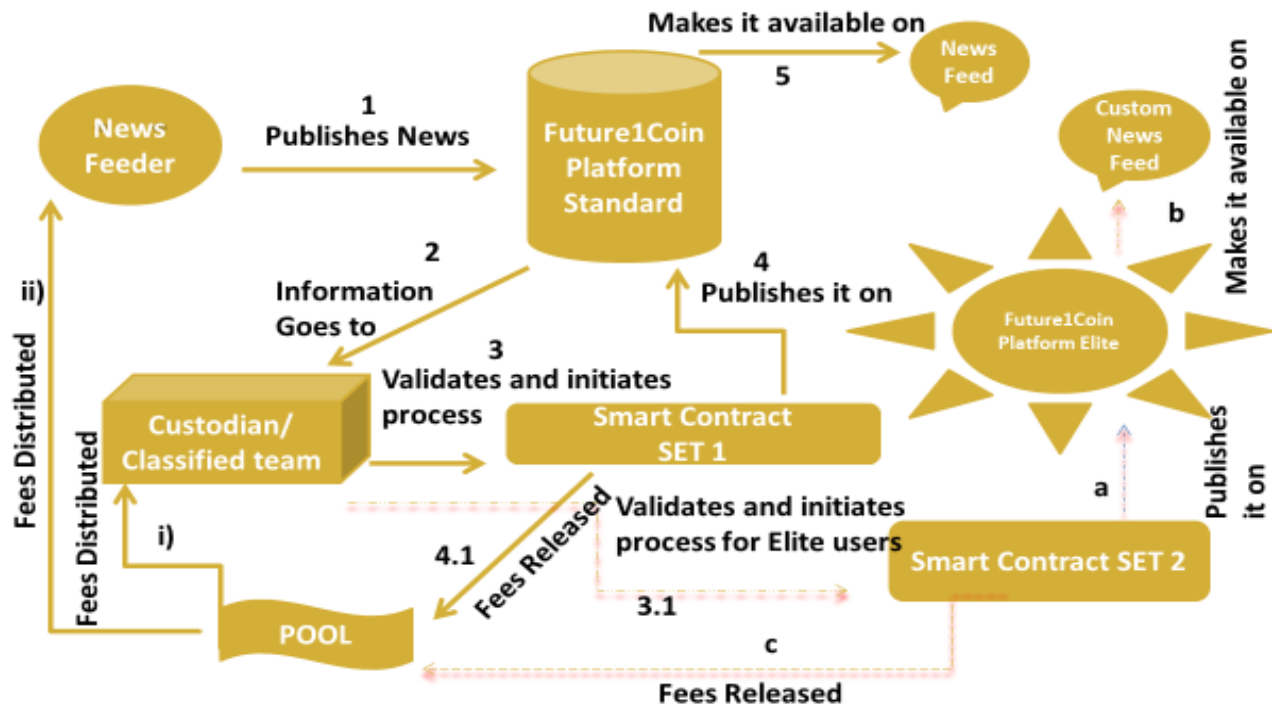

**Set B:** Activates the Subscription Platform Elite, which in turn can activate one, two, or all instruments- Custom News Feeds, ICO ratings Elite, ICO Listings Elite, Copy-Trading, or all based on the request.

**b. News feeding or custom feed Services:** A news feeder publishes a news or update on Future1Coin platform Standard. The platform initiates a process after analysing the news on recency, precision and pertinence to intimate Smart Contracts. Once done by reporting, it is published on the platform. The same is recorded or stored as database for future analysis, as historic data to be referred or presented on Subscription Platform Elite when any user opts for it.

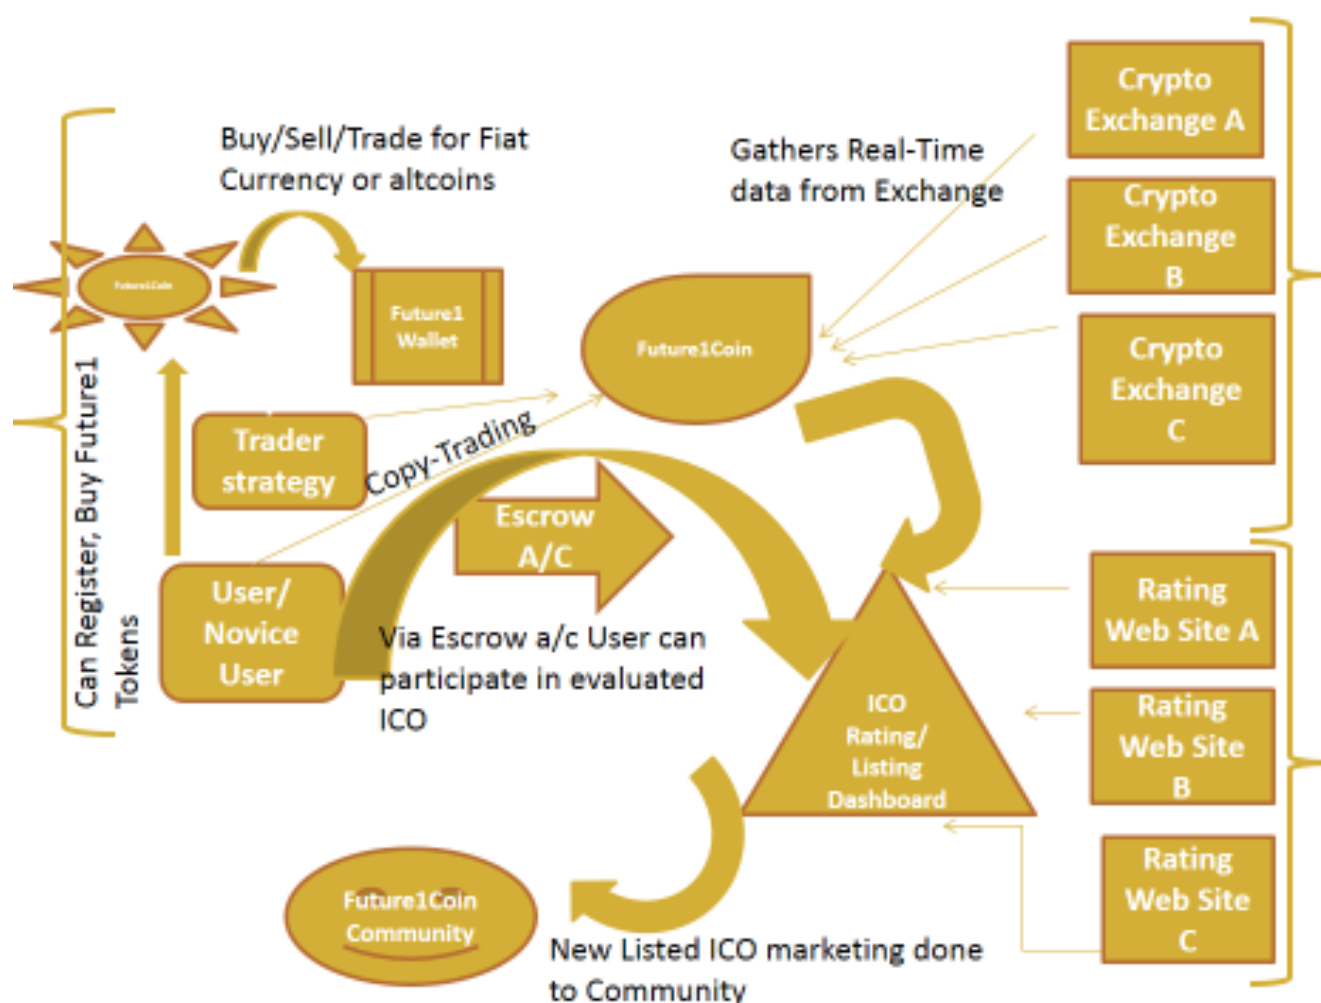

While smart contract publishes the news, it simultaneously accumulates the fee for the custodians, classified team and the news feeder in a pool. The pool distributes the fee to the concerned as per the contract.

## Advantages-

- i) **Crypto Edu Hub:** The Future1Coin Core team belongs to top notch of the industry and they realize the relevance of real-time data, organised and relevant information. This has given birth to the Future1Coin infrastructure, which is a “Universal Hub” for all the activities or decisive functions. The most critical aspects for short and long-term trading have been looked after while architecting the framework of the project. The result of the meticulous work has created Future1Coin platform which is just not the Hub for education, news, trade ideas, market analysis about Cryptocurrency market, but also is a platform for ICO listing with Good Governance clause, ICO Crowdfunding via escrow services and Copy-trading services. Therefore, it breaks all the entry barriers for any user or all kinds of traders. The education curve has been reduced to simple steps to success.
- ii) **Liquidity Aggregation:** Bringing all Cryptocurrencies on Future1Coin platform ensures best price quotes always; combined liquidity facilitates less slippage and increases the ability to execute large trades. The option of selecting strategy providers for copy-trading simultaneously also means huge benefit and liquidity aggregations.

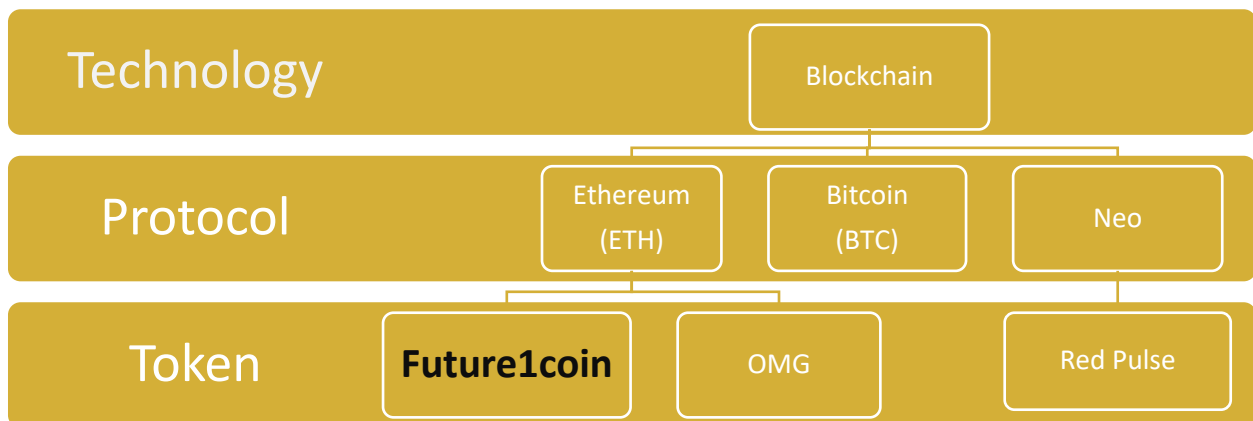

- iii) **Trading junction:** Future1Coin is one-stop trading juncture or terminal for all kinds of trading. Not just viewing, or ico listing or copy-trading but a forum for all. You have the opportunity of selecting from or get involved in Crypto-trading, ICO listings, ICO ratings, Copy-trading, forex, ICO Escrow services and many such under a single umbrella.

**ICO Governance:** The very question while addressing the safety concerns associated with the ICOs arises- Why allow fraudulence to happen?

The rapid and exponential growth of the blockchain technology is being exploited by the ICO market and is prematurely aiming to decentralize the VC market. Therefore, without resolving the basics of the market, ICO market is striving to include participation of nonprofessional venture users in innovative and logically sounding projects. The need of the hour is to create a system or platform which can regulate or self-regulate the process.

Future1Coin allows only “*Good-Governance*” ICOs to surface in the marketplace. The same is ensured by an automated technology supported by smart contracts which follows a financial registration or transparency, to be adhered by the listing team. Only when the required list of information is fetched and disclosed then the Smart Contract lists or rates the ICO on the platform. The ICO team has to disclose and file pertinent information about the governance and use of the funds or the money obtained from the Crowdfunding (Proceeds associated with their token Sale). They have to adhere a prescribed process to get listed or rated, which will in turn get them registered on a public register highlighting their financial credentials and many such information for the cryptocurrency user to refer to. When all this happens on Future1Coin blockchain platform the ICO becomes immutable, time-stamped, and can be identified on a centralized database.

## TOKEN SUPPLY AND SPECIFICATIONS

A total of 300 million FUTURE1COIN tokens will be issued on the Ethereum blockchain using a smart contract. Future1coin will comply with the ERC-20 standard and will be freely transferable on the Ethereum platform. FUTURE1COIN tokens do not indicate ownership of a company. The token is an integral part of FUTURE1COIN's economy, and its value will reflect the degree of penetration and activity within the platform. With the expansion of Future1coin userbase, more new platform features will be developed and released.

## HOW TO BUY FUTURE1COIN TOKENS

We allow users to buy FUTURE1COIN tokens with ***Fiat currencies (USD, EUR)*** as well as Cryptocurrencies (ETH, BTC). The Future1coin tokens will be distributed immediately upon completion of the token sale.

In order to receive the FUTURE1COIN tokens and make them visible in your wallet, we require you to specify your address from an ERC-20 compliant wallet. Do not enter your address from your exchange wallet.

We recommend the use/creation of the below wallet

- Myetherwallet (<http://myetherwallet.com/>) . Login with Metamask for security and safety of your tokens alternatively use ledger Nano S hardware wallet .

We will require a basic Know-Your- Customer Check (KYC) to ensure AML-Checks. For this we will present you backend login page to upload a copy of your passport, ID or driver license in future1coin website. Our back-office team will review your documents, approve it, or contact you in case of any problems.

In order to ensure a smooth experience with the purchase of our FUTURE1COIN, you should:

- ✓ Carefully read our Whitepaper and Token Agreement to learn about our offer, risk factors, the functionality and purpose of our token
- ✓ To get Free Tokens enroll in our Affiliate platform
- ✓ Join our communication channels to keep you informed

Future1coin tokens will be issued during our Crowdsale. Here are the details of the Crowdsale:

**COIN NAME** – FUTURE1COIN

**TOKEN** – Ethereum (ERC-20)

**SYMBOL** – F1C

**DECIMAL** – 18

**MANAGEMENT** – 50 MILLION TOKENS

**PRESALE / ICO**– 250 MILLION TOKENS

**TOTAL** – 300 MILLION TOKENS

**SOFT CAP** – 500,000 USD

**HARD CAP** – 2 MILLION USD

**SMART CONTRACT(GIT):**

<https://github.com/future1coin/Smart-Contract/blob/master/FUTURE1COIN.sol>

**CONTRACT ADDRESS:**

<https://etherscan.io/token/0xb0a0a070640b450eb136dc377208469ee4f49fbc>

## **PRE-SALE**

**Start Date:** 01 Dec 2017, **End Date:** 14th May 2018

## **TOKEN SALE**

**Start Date:** 15th May 2018, **End Date:** 15th June 2018

Token distribution to the provided ETH address inside the Future1coin  
Token Sale Client Area .

## **LISTING**

30-60 DAYS POST TOKEN SALE

ANY COINS NOT SOLD BY THE END OF THE 30TH DAY ICO PERIOD  
MAY BE BURNED OR WILL BE HELD BY Future1coin AND THEIR USES  
WILL BE AS FOLLOWS:

- a. TECHNOLOGY BUILD
- b. MARKETING
- c. INCENTIVES
- d. FUTURE DEVELOPMENT

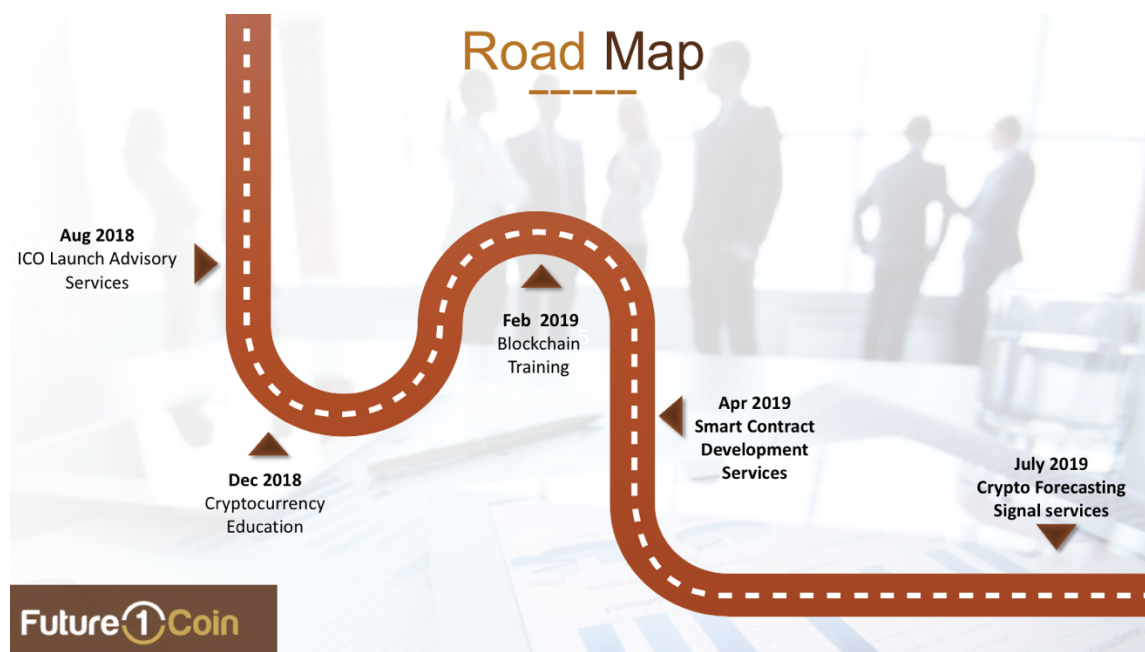

## **Crowdsale Distribution**

The funds raised during the ICO will go towards funding future development of the Future1coin platform and helping us meet our roadmap goals.

Purchase (ICO Price):	1 Future1Coin(F1C) Token sold at \$9 cents usd
Min Token Sale Target:	100,000,000 F1C (100 million tokens)
Max. Supply Limit of Tokens	
Available for Sale:	250,000,000 F1C (250 million tokens)
Tokens Created :	300,000,000 F1C (300 million tokens)
Min Cap in Tokens:	1,000,000 F1C (one million tokens)
Average Price Pre ICO:	\$3.2 cents usd
Ticker Symbol:	F1C
Minimum Purchase Per	
Person Pre-Sale /Main Sale:	\$1000 / \$100
Maximum Purchase	
Per Subscription:	\$50,000
Pre-Sale:	220,000,000 F1C
Main Sale:	30,000,000 F1C
ICO Price :	\$ 9 cents usd
Accepted Fiat Currencies:	EUR, USD
Accepted Cryptocurrencies:	BTC, ETH
Accepted Nationalities:	Every Nationality, except: United States, People's Republic of China or resident of a country where American embargoes and sanctions are in force, namely Iran, North Korea, Syria, Sudan, or Cuba.

## THE ROADMAP

This roadmap details our plans for the first phase of development and their respective timelines. We will be updating this roadmap going forward.

### **Kishore M - FOUNDER**

Kishore M (B.COM, MBA, CEP (IIT), ADSM) is an Ex-Hedge Fund Manager and has over a decade of experience in the Stock, CFD, Forex, ADR's, Commodities, Index, Futures, Options & Cryptocurrency. He received his Master in Business Administration from Institute for Technology and Management in association/collaboration with Southern New Hampshire University Manchester, the USA earlier known as New Hampshire College,

Mastering Alternative Investments Certificate from INSEAD, has certificate in Computer Network & Internet Applications Course(CEP) from IIT Kharagpur and has Advance Diploma in Computer Systems Management from NIIT.

He is a certified Investment Representative, ETS Derivatives Qualified Trader. He is trained by Chicago Board of Exchange and Pacific Stock Exchange Members in Derivatives instruments on Options & Futures Trading,

and educated in Derivatives instruments from the University of California Berkeley (Ext), USA.

He started his career with a Securities Broking Firm on the OTCEI exchange as a Private fund & Equity Manager and subsequently headed several start-ups in Asia and in US (Silicon Valley). He has conducted Stock & Derivatives seminars for International Brokers such as REFCO based in Singapore and Regional brokers such as CIMB based in Malaysia.

He has been featured in Singapore Stock Exchange Magazine, Indonesia (JawaPos) & Middle East Newspaper (Khaleej Times) and has also been featured in Bloomberg TV, BBC, Malaysia Business TV Channel & Singapore Channel News Asia, News Radio 93.8 FM, Asian Banker Journal, and on Global Hedge Fund websites such as Hedge fund Center, HedgeWeek, HedgeFund Research and Hedge Funds World.

His Entrepreneurial skills had won him the TII status (Technopreneur Investment Incentive Status) from EDB Singapore Government. He is a member of TIE world's leading Venture Capital Association and one of the most sought-after speakers for entrepreneurship, capital markets, derivatives, cryptocurrency, and Alternative Investment.

He is a strategic advisor to companies planning their ICO. He also provides Forex, Derivatives & Cryptocurrency workshop to senior corporate management teams, Broking Houses and Derivative Exchanges Members and conducts Financial Markets & Digital Currency Seminars to public audiences across Asia & Middle East [www.championtradersacademy.com](http://www.championtradersacademy.com).

He has trained over 50,000 participants in 10 countries (Hongkong, Malaysia, Singapore, Indonesia, Middle East, Philippines, London etc) in the area of alternative investments; some of his participants include professionals from ABN AMRO Bank, RHB Securities, AMEX, Deutsche Bank, HSBC, Citibank, Doha Bank, CIMB Securities, Man financial, REFCO, DBSVICKERS, CSFB, UOB Bank. Under his proprietary trading company – [www.futurescapitalholdings.com](http://www.futurescapitalholdings.com) he has a performance of 99.05% return (2003-2004) and 233.13% return (2003-2005) attested & certified by Auditors.”

# TOKEN DISTRIBUTION

**MANAGEMENT** – 50 MILLION TOKENS

**PRESALE / ICO**– 250 MILLION TOKENS

## Token Sale Proceeds Allocation:

Talent Recruitment & Business Development - 10%

Legal and Regulatory - 5%

Marketing - 30%

R&D – 10%

Tech-Development - 25%

Operation expense – 20%

# FUTURE1COIN ECOSYSTEM

## Future1coin ECOSYSTEM

Future1coin token represent a utility token that provides a combined access to Blockchain & Cryptocurrency education, ICO Launch Services; Token rating, Coin Summit, Trading, Exchange , Forecasting , Commission Sharing and Affiliate Marketing Platform.

Post ICO Future1Coin will be tradable on Crypto exchange . The number of exchanges depends on the milestones reached during this ICO.

# RISK FACTORS

## RISK FACTORS

PLEASE READ THESE TERMS OF SALE CAREFULLY. YOU WAIVE YOUR RIGHT TO DEMAND THE RETURN OF ANY AMOUNTS YOU PAID US FOR THE OFFERING UNDER ANY CIRCUMSTANCES, INCLUDING, WITHOUT LIMITATION, A DEMAND FOR SPECIFIC PERFORMANCE. NOTE THAT YOU AGREE TO CLASS ACTION WAIVER AND YOU ARE GIVING UP YOUR RIGHT TO GO TO ANY COURT IN ANY COUNTRY TO DEFEND YOUR RIGHTS. IF YOU DO NOT AGREE TO THESE TERMS OF SALE, DO NOT PURCHASE TOKENS.

You represent to us that you are lawfully able to enter into contracts (e.g., you are not a minor). If you are entering into this Agreement for an entity, such as the company you work for, you represent to us that you have the legal authority to bind that entity.

The purchase of tokens involves a high degree of risk, including but not limited to the risks described below. Before acquiring FUTURE1COIN tokens, it is recommended that each participant carefully weighs all the information and risks detailed in this White Paper. Please further note that the Future1coin project may be subject to other risks not foreseen.

### Dependence on Computer Infrastructure

FUTURE1COIN's dependence on functioning software applications, computer hardware and the Internet implies that FUTURE1COIN can offer no assurances that a system failure would not adversely affect the use of your FUTURE1COIN tokens. Despite FUTURE1COIN's implementation of all reasonable network security measures, its processing Center servers are vulnerable to computer viruses, physical or electronic break-ins or other disruptions of a similar nature. Computer viruses, break-ins or other disruptions caused by third parties may result in interruption, delay or suspension of services, which would limit the use of the tokens.

### Smart Contract Limitations

Smart contract technology is still in its early stages of development, and its application is of an experimental nature. This may carry significant operational, technological, regulatory, reputation and financial risks. Consequently, although the audit conducted by an independent third party increases the level of security, reliability, and accuracy, this audit cannot serve as any form of warranty, including any expressed or implied the warranty that the Smart Contract is fit for purpose or that it contains no flaws, vulnerabilities or issues which could cause technical problems or the complete loss of tokens.

### Risk Associated with Purchaser Credentials

Any third party that gains access to the Purchaser's login credentials or private keys may be able to dispose of the Purchaser's Tokens. To minimize this risk, the Purchaser should guard against unauthorized access to their electronic devices.

### Regulatory Risks

Crypto-tokens have been the subject of scrutiny by various regulatory authorities and may be overseen by the legal and regulatory authorities of a number of jurisdictions globally. The functioning of the FUTURE1COIN Network and the Tokens could be impacted by one or more regulatory inquiries or actions, including, but not limited to, restrictions on the use or possession of digital tokens like the Tokens, which could impede or limit the development of the FUTURE1COIN Network. The Company may receive notices, queries, warnings, requests or rulings from one or more authorities upon short notice, or may even be ordered to suspend or terminate any action in connection with the Token Sale or FUTURE1COIN as a whole without prior notice. Furthermore, many aspects of FUTURE1COIN also involve untested areas of law and regulation and could be subject to new laws or regulation, so their legal and regulatory outcome in all relevant jurisdictions is not possible to predict. The planning, development, marketing, promotion, execution or otherwise of the Company or the Token Sale may be seriously affected, hindered, postponed or terminated as a result. Since regulatory

policies can change with or without prior notice, any existing regulatory permissions for or tolerance of the Company, the FUTURE1COIN Network and the Token Sale in any jurisdiction may be withdrawn without warning. The Tokens could be deemed from time to time as a virtual commodity, a digital asset or even as money, securities or currency in various jurisdictions and therefore could be prohibited from being sold, purchased, traded, distributed or held in certain jurisdictions pursuant to local regulations. In turn, FUTURE1COIN could be deemed to be a regulated or restricted product. There is no guarantee that the Company can maintain any particular legal or regulatory status in any particular jurisdiction at any time.

### Taxes

FUTURE1COIN token holders may be required to pay taxes associated with the transactions contemplated herein. It will be a sole responsibility of FUTURE1COIN token holders to comply with the tax laws of the jurisdictions applicable to them and pay all relevant taxes.

### Force Majeure

FUTURE1COIN's performance may be interrupted, suspended or delayed due to force majeure circumstances. For the purposes of this White Paper, force majeure shall mean extraordinary events and circumstances which could not be prevented by FUTURE1COIN and shall include acts of nature, wars, armed conflicts, mass civil disorders, industrial actions, epidemics, lockouts,

slowdowns, prolonged shortage or other failures of energy supplies or communication service acts of municipal, state or federal governmental agencies, other circumstances beyond FUTURE1COIN's control, which were not in existence at the time of White Paper release.

If such circumstances occur prior to the issue of FUTURE1COIN tokens and FUTURE1COIN is unable to issue FUTURE1COIN tokens there will be no refund of money.

### Value of FUTURE1COIN Token

Once purchased, the value of FUTURE1COIN token may significantly fluctuate due to various reasons. FUTURE1COIN does not guarantee any specific value of the FUTURE1COIN token over any specific period of time. FUTURE1COIN shall not be held responsible for any change in the value of FUTURE1COIN token including the complete loss of value of the FUTURE1COIN. There is no guarantee that users can acquire sufficient FUTURE1COIN Tokens for their usage within the FUTURE1COIN and external platforms and neither is there a guarantee future1coin will be able to list on cryptocurrency exchange and that users can cash out their FUTURE1COIN Tokens via external platforms. Furthermore, every FUTURE1COIN Token holder naturally carries the risk of volatile exchange rate fluctuations of the FUTURE1COIN Token towards both other Crypto Currencies and Fiat Money exchange rates.

### Bitcoin and Ethereum Volatility

The FUTURE1COIN token may be significantly influenced by digital currency market trends and FUTURE1COIN value may be severely depreciated due to non-FUTURE1COIN related events in the digital currency markets. Cryptocurrencies exchange rate volatility may impact the company's ability to provide services at the indicated prices. Assumptions with respect to the foregoing involve, among other judgments about the future economic, competitive and market conditions and business decisions, most of which are beyond the control of the FUTURE1COIN team and are therefore difficult or impossible to accurately predict.

### Lack of funds from TOKEN Sale proceeds

FUTURE1COIN may not reach the target sale amount and may not have sufficient funds to execute its business plan. Furthermore, FUTURE1COIN may not succeed in creating the necessary momentum and acceptance for the FUTURE1COIN token which may result in low liquidity and depletion of future1coins. The positions and plans outlined in this white paper may be altered as the project progresses.

### Delayed Projects & Competition

Although the FUTURE1COIN team believes that its assumptions underlying its forward-looking statements are reasonable, any of these may prove to be inaccurate. As a result, the FUTURE1COIN team can offer no assurances that the forward-looking statements contained in this White Paper will prove to be accurate.

In light of the significant uncertainties inherent in the forward-looking statements contained herein, the inclusion of such information may not be interpreted as a warranty on the part of FUTURE1COIN or any other entity that the objectives and plans of the FUTURE1COIN project will be successfully achieved. Competition may introduce the same or better solutions and cause FUTURE1COIN to lose market share and eventually fail to deliver on its business goals.

## IMPORTANT NOTICE

PLEASE READ THIS SECTION AND THE FOLLOWING SECTIONS ENTITLED “DISCLAIMER OF LIABILITY”, “NO REPRESENTATIONS AND WARRANTIES”, “REPRESENTATIONS AND WARRANTIES BY YOU”, “CAUTIONARY NOTE ON FORWARD LOOKING STATEMENTS”, “MARKET AND INDUSTRY INFORMATION AND NO CONSENT OF OTHER PERSONS”, “NO ADVICE”, “NO FURTHER INFORMATION OR UPDATE”, “RESTRICTIONS ON DISTRIBUTION AND DISSEMINATION”, “NO OFFER OF SECURITIES OR REGISTRATION” AND “RISKS AND UNCERTAINTIES” CAREFULLY.

IF YOU ARE IN ANY DOUBT AS TO THE ACTION YOU SHOULD TAKE, YOU SHOULD CONSULT YOUR LEGAL, FINANCIAL, TAX OR OTHER PROFESSIONAL ADVISOR(S).

The FUTURE1COIN tokens are not intended to constitute securities or financial instruments in any jurisdiction. This Whitepaper does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer of securities or a solicitation for investment in securities in any jurisdiction. This Whitepaper does not constitute or form part of any opinion on any advice to sell, or any solicitation of any offer by the seller of the FUTURE1COIN tokens (the “Token Provider”) to purchase any

FUTURE1COIN tokens nor shall it or any part of it nor the fact of its presentation form the basis of, or be relied upon in connection with, any contract or investment decision.

The Token Provider will deploy all proceeds of sale of the FUTURE1COIN tokens to fund the herein described cryptocurrency project, businesses and operations. No person is bound to enter into any contract or binding legal commitment in relation to the sale and purchase of the FUTURE1COIN tokens and no cryptocurrency or other form of FUTURE1COIN is to be accepted on the basis of this Whitepaper.

Any agreement as between the Token Provider and you as a purchaser, and in relation to any sale and purchase, of FUTURE1COIN tokens (as referred to in this Whitepaper) is to be governed by only a separate document setting out the terms and conditions (the “T&Cs”) of such agreement. In the event of any inconsistencies between the T&C and this Whitepaper, the former shall prevail. You are not eligible and not allowed to participate in the FUTURE1COIN Initial Token Sale (as referred to in this Whitepaper) as well as in the Token Sale Referral Program, if you are a citizen, resident (tax or otherwise) or green card holder of the United States of America, People’s Republic of China or Socialist Republic of Vietnam or resident of a country where American embargoes and sanctions are in force, namely Iran, North Korea, Syria, Sudan, or Cuba.

No regulatory authority has examined or approved of any of the information set out in this Whitepaper. No such action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction. The publication, distribution or dissemination of this Whitepaper does not imply that the applicable laws, regulatory requirements or rules have been complied with.

There are risks and uncertainties associated with FUTURE1COIN and/or the Token Provider and their respective businesses and operations, the FUTURE1COIN tokens, the FUTURE1COIN Initial Token Sale and the FUTURE1COIN Wallet (each as referred to in this Whitepaper). This Whitepaper, any part thereof and any copy thereof must not be taken or transmitted to any country where distribution or dissemination of this whitepaper is prohibited or restricted. No part of this Whitepaper is to be reproduced, distributed or disseminated without including this section and the following sections entitled “Disclaimer of Liability”, “No Representations and Warranties”, “Representations and Warranties By You”, “Cautionary Note On Forward-Looking Statements”, “Market and Industry Information and No Consent of Other Persons”, “Terms Used”, “No Advice”, “No Further Information or Update”, “Restrictions On Distribution and Dissemination”, “No Offer of Securities Or Registration” and “Risks and Uncertainties”.

## DISCLAIMER OF LIABILITY

To the maximum extent permitted by the applicable laws, regulations and rules, FUTURE1COIN and/or the Token Provider shall not be liable for any indirect, special, incidental, consequential or other losses of any kind, in tort, contract

or otherwise (including but not limited to loss of revenue, income or profits, and loss of use of data), arising out of or in connection with any acceptance of or reliance on this Whitepaper or any part thereof by you.

## NO REPRESENTATIONS AND WARRANTIES

FUTURE1COIN and/or the Token Provider does not make or purport to make, and hereby disclaims, any representation, warranty or undertaking in any form whatsoever to any entity or person, including any representation, warranty or undertaking in relation to the truth, accuracy and completeness of any of the information set out in this Whitepaper.

## REPRESENTATIONS AND WARRANTIES BY YOU

By accessing and/or accepting possession of any information in this Whitepaper or such part thereof (as the case may be), you represent and warrant to FUTURE1COIN and/or the Token Provider as follows:

- (a) You agree and acknowledge that the FUTURE1COIN tokens do not constitute securities in any form in any jurisdiction.
  
- (b) You agree and acknowledge that this Whitepaper does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer of securities in any jurisdiction or a solicitation for investment in securities and you are not bound to enter into any contract or binding legal commitment and no cryptocurrency or other forms of payment have to be accepted on the basis of this Whitepaper.

(c) You agree and acknowledge that no regulatory authority has examined or approved of the information set out in this Whitepaper, no action has been or will be taken under the laws, regulatory requirements or rules of any jurisdiction and the publication, distribution or dissemination of this Whitepaper to you does not imply that the applicable laws, regulatory requirements or rules have been complied with.

(d) You agree and acknowledge that this Whitepaper, the undertaking and/or the completion of the FUTURE1COIN Initial Token Sale, or future trading of the FUTURE1COIN tokens on any cryptocurrency exchange, shall not be construed, interpreted or deemed by you as an indication of the merits of the FUTURE1COIN and/or the Token Provider, the FUTURE1COIN tokens, the FUTURE1COIN Initial Token Sale and the FUTURE1COIN Wallet (each as referred to in this Whitepaper).

(e) The distribution or dissemination of this Whitepaper, any part thereof or any copy thereof, or acceptance of the same by you, is not prohibited or restricted by the applicable laws, regulations or rules in your jurisdiction, and where any restrictions in relation to possession are applicable, you have observed and complied with all such restrictions at your own expense and without liability to FUTURE1COIN and/or the Token Provider.

(f) You agree and acknowledge that in the case where you wish to purchase any FUTURE1COIN tokens, the FUTURE1COIN tokens are not to be construed, interpreted, classified or treated as:

- Any kind of currency other than cryptocurrency;
- Debentures, stocks or shares issued by any person or entity (whether Rights, options or derivatives in respect of such debentures, stocks share; I. Units in a collective investment scheme; III. Derivatives of units in a business trust; or IV. Any other security or class of securities)

(g) You have a basic degree of understanding of the operation, functionality, usage, storage, transmission mechanisms and other material characteristics of cryptocurrencies, blockchain-based software systems, cryptocurrency wallets or other related token storage mechanisms, blockchain technology and smart contract technology.

(i) You are fully aware and understand that in the case where you wish to purchase any FUTURE1COIN tokens, there are risks associated with FUTURE1COIN and the Token Provider and their respective business and operations, the FUTURE1COIN tokens, the FUTURE1COIN Initial Token Sale and the FUTURE1COIN Wallet (each as referred to in the Whitepaper).

(j) You agree and acknowledge that neither FUTURE1COIN nor the Token Provider is liable for any indirect, special, incidental, consequential or other losses of any kind, in tort, contract or otherwise (including but not limited to loss of revenue, income or profits, and loss of use of data), arising out of or in connection with any acceptance of or reliance on this Whitepaper or any part thereof by you; and rights under a contract for differences or under any other

contract the purpose or pretended purpose of which is to secure a profit or avoid a loss.

(k) All of the above representations and warranties are true, complete, accurate and non-misleading from the time of your access to and/or acceptance of possession this Whitepaper or such part thereof (as the case may be).

#### CAUTIONARY NOTE ON FORWARD-LOOKING STATEMENTS

All statements contained in this Whitepaper, statements made in press releases or in any place accessible by the public and oral statements that may be made by FUTURE1COIN and/or the Token Provider or their respective directors, executive officers or employees acting on behalf of FUTURE1COIN or the Token. All statements regarding FUTURE1COIN's and/or the Token Provider's financial position, business strategies, plans, and prospects and the future prospects of the industry which FUTURE1COIN and/or the Token Provider is in are forward-looking statements. These forward-looking statements, including but not limited to statements as to FUTURE1COIN's and/or the Token Provider's revenue and profitability, prospects, future plans, other expected industry trends and other matters discussed in this Whitepaper regarding FUTURE1COIN and/or the Token Provider are matters that are not historical facts, but only predictions.

These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual future results, performance or achievements of FUTURE1COIN and/or the Token Provider to be materially different from any future results, performance or achievements expected, expressed or implied by such forward-looking statements

These factors include, amongst others:

(a) Changes in political, social, economic and stock or cryptocurrency market conditions, and the regulatory environment in the countries in which FUTURE1COIN and/or the Token Provider conducts its respective businesses and operations.

(b) The risk that FUTURE1COIN and/or the Token Provider may be unable to execute or implement their respective business strategies and future plans.

(c) Changes in interest rates and exchange rates of fiat currencies and cryptocurrencies.

(d) Changes in the anticipated growth strategies and expected internal growth of FUTURE1COIN and/or the Token Provider.

(e) Changes in the availability and fees of Future1coin and/or the Token Provider in connection with their respective businesses and operations.

(f) Changes in the availability and salaries of employees who are required by FUTURE1COIN and/or the Token Provider to operate their respective businesses and operations.

(g) Changes in preferences of customers of FUTURE1COIN and/or the Token Provider.

(h) Changes in competitive conditions under which FUTURE1COIN and/or the Token Provider operates, and the ability of FUTURE1COIN and/or the Token Provider to compete under such conditions.

(i) Changes in the future capital needs of FUTURE1COIN and/or the Token Provider and the availability of financing and capital to fund such needs.

(j) War or acts of international or domestic terrorism.

(k) Occurrences of catastrophic events, natural disasters and acts of God that affect the businesses and/or operations of FUTURE1COIN and/or the Token Provider.

(l) Other factors beyond the control of FUTURE1COIN and/or the Token Provider; and

(m) Any risk and uncertainties associated with FUTURE1COIN and/or the Token Provider and their businesses and operations, the FUTURE1COIN tokens, the FUTURE1COIN Initial Token Sale and the FUTURE1COIN Wallet (each as referred to in the Whitepaper).

All forward-looking statements made by or attributable to FUTURE1COIN and/or the Token Provider or persons acting on behalf of FUTURE1COIN and/or the Token Provider or persons acting on behalf of FUTURE1COIN and/or the Token Provider are expressly qualified in their entirety by such factors. Given that risks and uncertainties that may cause the actual future results, performance or achievements of FUTURE1COIN and/or the Token Provider to be materially different from that expected, expressed or implied by the forward-looking statements in this Whitepaper, undue reliance must not be placed on these statements. These forward-looking statements are applicable only as of the date of this Whitepaper.

Neither FUTURE1COIN, the Token Provider nor any other person represents, warrants and/or undertakes that the actual future results, performance or achievements of FUTURE1COIN and/or the Token Provider will be as discussed in those forward-looking statements. The actual results, performance or achievements of FUTURE1COIN and/or the Token Provider may differ materially from those anticipated in these forward-looking statements. Nothing contained in this Whitepaper is or may be relied upon as a promise, representation or undertaking as to the future performance or policies of FUTURE1COIN and/or the Token Provider. Further, FUTURE1COIN and/or the Token Provider disclaim any responsibility to update any of these forward-looking statements or publicly announce any revisions to these forward-looking statements to reflect future developments, events or circumstances, even if new information becomes available or other events occur in the future.

## MARKET AND INDUSTRY INFORMATION AND NO CONSENT OF OTHER PERSONS

This Whitepaper includes market and industry information and forecasts that have been obtained from internal surveys, reports, and studies, where appropriate, as well as market research, publicly available information and industry publications. Such surveys, reports, studies, market research, publicly available information and publications generally state that the information that they contain has been obtained from sources believed to be reliable, but there can be no assurance as to the accuracy or completeness of such included information.

Save for FUTURE1COIN, the Token Provider and their respective directors, executive officers and employees, no person has provided his or her consent to the inclusion of his or her name and/or other information attributed or perceived to be attributed to such person in connection therewith in this Whitepaper and no representation, warranty or undertaking is or purported to be provided as to the accuracy or completeness of such information by such person and such persons shall not be obliged to provide any updates on the same.

While FUTURE1COIN and/or the Token Provider have taken reasonable actions to ensure that the information is extracted accurately and in its proper context, FUTURE1COIN and/or the Token Provider have not conducted an independent review of the information extracted from third party sources,

verified the accuracy or completeness of such information or ascertained the underlying economic assumptions relied upon therein. Consequently, neither FUTURE1COIN, the Token Provider, nor their respective directors, executive officers and employees acting on their behalf makes any representation or warranty as to the accuracy or completeness of such information and shall not be obliged to provide any updates on the same.

### TERMS USED

To facilitate a better understanding of the FUTURE1COIN tokens being offered for purchase by the Token Provider, and the businesses and operations of FUTURE1COIN and/or the Token Provider, certain technical terms, and abbreviations, as well as, in certain instances, their descriptions, have been used in this Whitepaper. These descriptions and assigned meanings should not be treated as being definitive of their meanings and may not correspond to standard industry meanings or usage. Words importing the singular shall, where applicable, include the plural and vice versa and words importing the masculine gender shall, where applicable, include the feminine and neuter genders and vice versa. References to persons shall include corporations.

### NO ADVICE

No information in this Whitepaper should be considered to be business, legal, financial or tax advice regarding FUTURE1COIN, the Token Provider, the FUTURE1COIN tokens, the FUTURE1COIN Initial Token Sale and the FUTURE1COIN Wallet (each as referred to in the Whitepaper). You should consult your own legal, financial, tax or other professional advisers regarding

FUTURE1COIN and/or the Token Provider and their respective businesses and operations, the FUTURE1COIN tokens, the FUTURE1COIN Initial Token Sale and the FUTURE1COIN Wallet (each as referred to in the Whitepaper). You should be aware that you may be required to bear the financial risk of any purchase of FUTURE1COIN tokens for an indefinite period of time.

### **NO FURTHER INFORMATION OR UPDATE**

No person has been or is authorized to give any information or representation not contained in this Whitepaper in connection with FUTURE1COIN and/or the Token Provider and their respective businesses and operations, the FUTURE1COIN tokens, the FUTURE1COIN Initial Token Sale and the FUTURE1COIN Wallet (each as referred to in the Whitepaper) and, if given, such information or representation must not be relied upon us having been authorized by or on behalf of FUTURE1COIN and/or the Token Provider. The FUTURE1COIN Initial Token Sale (as referred to in the Whitepaper) shall not, under any circumstances, constitute a continuing representation or create any suggestion or implication that there has been no change, or development reasonably likely to involve a material change in the affairs, conditions and prospects of FUTURE1COIN and/or the Token Provider or in any statement of fact or information contained in this Whitepaper since the date hereof.

### **NO OFFER OF SECURITIES OR REGISTRATION**

Any agreement in relation to any sale and purchase of FUTURE1COIN tokens (as referred to in this Whitepaper) is to be governed by only the T&Cs of such agreement and no other document. In the event of any inconsistencies between the T&Cs and this Whitepaper, the former shall prevail.

## RISKS AND UNCERTAINTIES

Prospective purchasers of FUTURE1COIN tokens (as referred to in this Whitepaper) should carefully consider and evaluate all risks and uncertainties associated with FUTURE1COIN, the Token Provider and their respective businesses and operations, the FUTURE1COIN tokens, the FUTURE1COIN Initial Token Sale and the FUTURE1COIN Wallet (each as referred to in the Whitepaper), all information set out in this Whitepaper and the T&Cs prior to any purchase of FUTURE1COIN tokens.

If any of such risks and uncertainties develop into actual events, the business, financial condition, results of operations and prospects of FUTURE1COIN and/or the provider could be materially and adversely affected. In such cases, you may lose all or part of the value of the FUTURE1COIN tokens.

### Additional Disclaimer

Please keep in mind that this document is provided for your information only and that under no circumstance should it be considered an effort by future1coin to either promote or sell stocks or securities on its platform or on any other related or associated company's platform. Please note, this is to be treated as a draft and is subject to change once the future1coin ICO begins.

### FUTURE1COIN tokens are not securities

Future1coinrs comprehend and fully accept the fact that Future1coin Token are not securities under any circumstance, neither are they registered with any

government entity as a security. Future1coin token holders comprehend and fully accept the fact that ownership of Future1coin Token does not grant them the right to expect or to receive proceeds, revenue, or other payments or returns arising from the attainment, holding, administration or disposal of, the exercise of, the redemption of, or the expiry of, any right, interest, title or benefit within the future1coin platform or any profits of the company or other future1coin property, partially or entirely.

#### **FUTURE1COIN tokens are not to be considered an investment**

Although the future1coin team will do its best to proceed with the project described within this whitepaper and complete it at the best of its ability, unforeseen circumstances might not allow the completion of the project in whole or partially. Future1coin Tokens can never be considered an official or legally binding investment of any kind and purchasing the token is done at own risk.

#### **No form of warrantee of proceed or revenue provided**

The purchase of future1coin tokens is done at the buyer's own risk and under no circumstance should the buyer hold future1coin accountable for any kind of losses as there are no warranties that the future1coin token will in fact increase in value or hold its value. Unforeseen circumstances such as war, strike, riot, crime, or any kind of natural disaster or even any other unforeseen events over and above the control of the future1coin token's developers could, at all times, badly affect, even irreversibly so, the token's price.

### Risks associated with regulation

ICOs and blockchain-based cryptocurrencies are mostly unregulated at present. Efforts are being made by various regulatory bodies around the world including central banks and governments to supervise, regulate or even restrict the cryptocurrency market. Such actions will greatly affect the functionality and value of the Future1coin Token as well as that of other cryptocurrencies.

### Risks associated with new technology

FUTURE1COIN tokens and cryptocurrency tokens, in general, are a relatively new and untested technology. Due to this nature, technology-related unforeseen events may occur at any time. Future1coins comprehend and fully accept all types of related risks involved.

### Ethereum related risks

FUTURE1COIN tokens will be issued on the Ethereum blockchain thus being dependant on it. The functionality of the Future1coin Tokens or the future1coin platform will be severely affected should the Ethereum protocol malfunction or fail.

### No fund insurance provided.

Any and all types of funds collected during PRE-ICO and ICO are in no way insured. Funds may lose their value in whole or completely without warning

There is no legal entity or insurance company, private or public, to turn to should something goes wrong with the funds provided.

### Crowdfunding

Future1coin bears no responsibility to cover any claims made by its crowdfunding promoting associates. The future1coin platform will not be held accountable in regards to other crowdfunding campaigns featured within and bears no responsibility whatsoever in regards to the related funds.

The future1coin platform is just an intermediary between the campaign creators and their users.

The purpose of the future1coin platform is limited to transferring funds from users to creators, and tokens of crowdfunding campaign creators to users. Future1coin does not warrantee any claims made by any of the trading participants.

### Integration

This whitepaper does not constitute an official agreement of any kind and the information provided herein is for information purposes only. Project parameters, dates, future1coin platform solution, specifications provided as well as other details technical or not are subject to change without prior notice.

### Lockin of Tokens

It is at the company's discretion to lock in Tokens post ICO. During Lockin Period Future1coin token holders cannot sell the tokens. The lockin period will be determined by the company management but will not exceed more than six months post ico.

### Risk associated with Listing on Exchanges

There no guarantee future1coin will be able to list on cryptocurrency exchange and that users can cash out their FUTURE1COIN Tokens via external platforms. If such circumstances occur there will be no refund of money.

### KYC and Compliance.

You will provide to us, immediately upon our notice of request, information that we, in our sole discretion, deem to be required to maintain compliance with any federal, state or local law, regulation or policy. Such documents include, but are not limited to, passports, driver's licenses, utility bills, photographs of you, government identification cards, or sworn statements.

### Indemnification

You will defend, indemnify, and hold harmless us, our affiliates and licensors, and each of their respective employees, officers, directors, and representatives from and against any claims, damages, losses, liabilities, costs, and expenses (including attorneys' fees) arising out of or relating to any third-party claim concerning this Agreement or your use of FUTURE1COIN, whether or not the FUTURE1COIN was sold to you under this Agreement. If we or our affiliates are obligated to respond to a third-party subpoena or other compulsory legal order or process described above, you will also reimburse us for reasonable attorneys' fees, as well as our employees' and contractors time and materials spent responding to the third-party subpoena or other compulsory legal order or process at reasonable hourly rates.

## JURISDICTION AND GOVERNING LAW

Future1coin is BVI registered company. The token sale, any related material and especially the content of this Whitepaper, the Whitepaper itself and any associated documents and material and any conflict arising from it or in relation to it shall be exclusively governed by the laws of BVI. The courts of BVI shall have the whole and exclusive jurisdiction.

FUTURE1COIN holds the right to amend this Contract i.e. white paper at the discretion of the Company, at any given time. You agree to all above the terms mentioned in this whitepaper when you purchase Future1coin tokens at the time of pre ico or ico.
