ANNUAL COIN WHITEPAPPER

ANNC has been neutralized with the Ethereum blockchain; its safety standards have been guaranteed and are being recognized by all users of the crypto world.

INTRODUCTION

ANNUAL COIN is digital and online Money to Trade/Exchange in Bitcoin (BTC), Waves, Ethereum (ETH), LTC and many more. Also, you can use Annual Coin to buy digital gold, silver and digital assets. Aim is to support cashless all over the world. We are fully supported by Ethereum.

THE TOKEN

ANNC is an Ethereum token

What is an ANNC ERC20 token?

An ANNC ERC20 token is a blockchain-based asset with similar functionality to bitcoin, ethereum, and bitcoin cash: it can hold value and be sent and received.

The major difference between ANNC tokens and other cryptocurrencies is that ANNC tokens are created and hosted on the Ethereum blockchain, whereas bitcoin and bitcoin cash are the native currencies of their respective blockchains.

ANNC tokens are stored and sent using ethereum addresses and transactions, and use gas to cover transaction fees.

ANNC has been neutralized with the Ethereum blockchain; its safety standards have been guaranteed and
are being recognized by all users of the crypto world.

What is Ethereum in Blockchain?

Ethereum is an open source decentralized platform which is based on Blockchain Technology which enables developers to build DAPPS (Decentralized applications) to run smart contracts. Now, let's understand what the problem is and how Ethereum is the solution to it.

Today, our own information, passwords, and money related data, on the whole to a great extent put away on other individuals' PCs – in mists and servers possess by organizations like Amazon, Facebook

How does ANNC work?

ANNC is a token created based on the ethereum platform, the way it works is the same as a token or other token created from the ethereum Platform.

Benefits of Ethereum Decentralized System

Below discussed are some major benefits of Ethereum, let's discuss them:
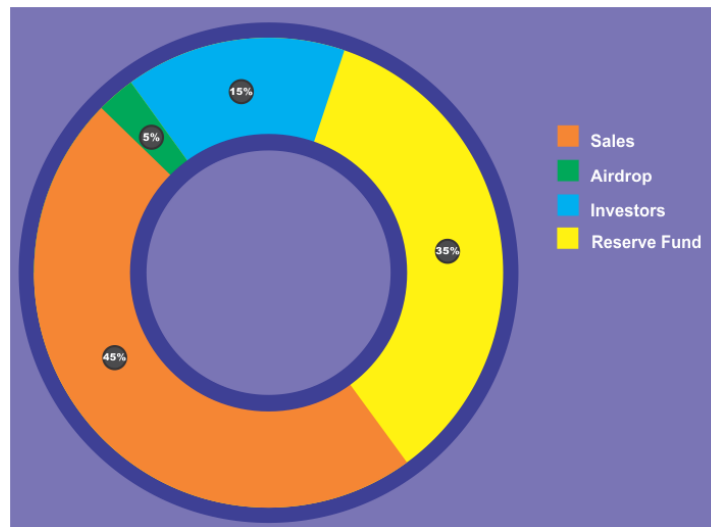

Unchanging nature – An outsider can't roll out any improvements to information.

Debasement and sealed – Apps depend on a system conformed to the standard of accord, making restriction unimaginable.

Secure – With no main issue of disappointment and secured utilizing cryptography, applications ensures against hacking assaults and deceitful exercises.

Zero downtime – Apps never go down and can never turn off.

Annual Coin Distribution

15% would be sold to the investors all over the world, 5% will be given out doing Airdrop. We will share 45% to exchanges for sales while remaining 35% will be lock up in Contract address.

Annual Coin Token Information:

Token Name: Annual Coin

Token Ticker: ANNC

Decimal: 8

Total Supply : 120,000,000ANNC

Contract address: 0xBEcD1101ca01005227Db7954D7609845f19d36B4

Investment:

We open up opportunities for anyone to become ANNC Token investors, Buy and holds for future we have great plan to move ANNC forward.

You can become one of our members by Invest into the ANNC token
