WHITEPAPER 1.0

Problem

Many small coins cannot afford to be added to Mobile Wallets.

WHITEPAPER 1.0

Problem 1

A small cryptoproject cannot be added to a mobile wallet, since they cannot afford a listing-fee of 1-5 BTC on many of the bigger wallet providers.

Problem 2

Existing Wallet-providers, do not have info about each coin listed.

We feel it is important with some info about each project and with links to social, exchanges and more.

Solutions

We will develop a wallet for everyone.

WHITEPAPER 1.0

For Everyone

We will develop a Mobile wallet for everyone.

Platforms

We are now live with our Android APP and are also working on iOS support.

Supported assets

Our Mobile wallet now supports more than 60 coins and tokens, we are working on adding more coins and tokens.

Service

B ONE PAYMENT is a Mobile Crypto Wallet. It can be used by private people or by shops if you want to accept Bitcoin or other currencies.

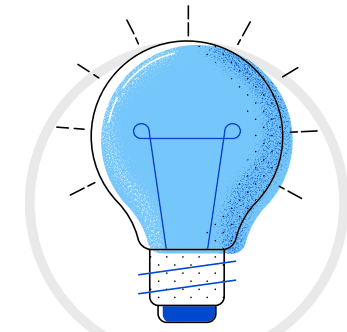

History

B ONE PAYMENT APP was made by developers of the two projects Bitcoin ONE and Bitcoin Turbo Koin.

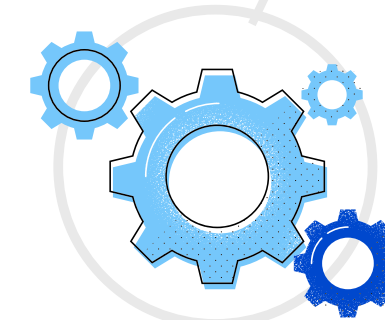

**Birth of B ONE
PAYMENT**

2018 - April

**Development
and more coins**

2019

**We will add iOS and
Ethereum and tokens**

2020

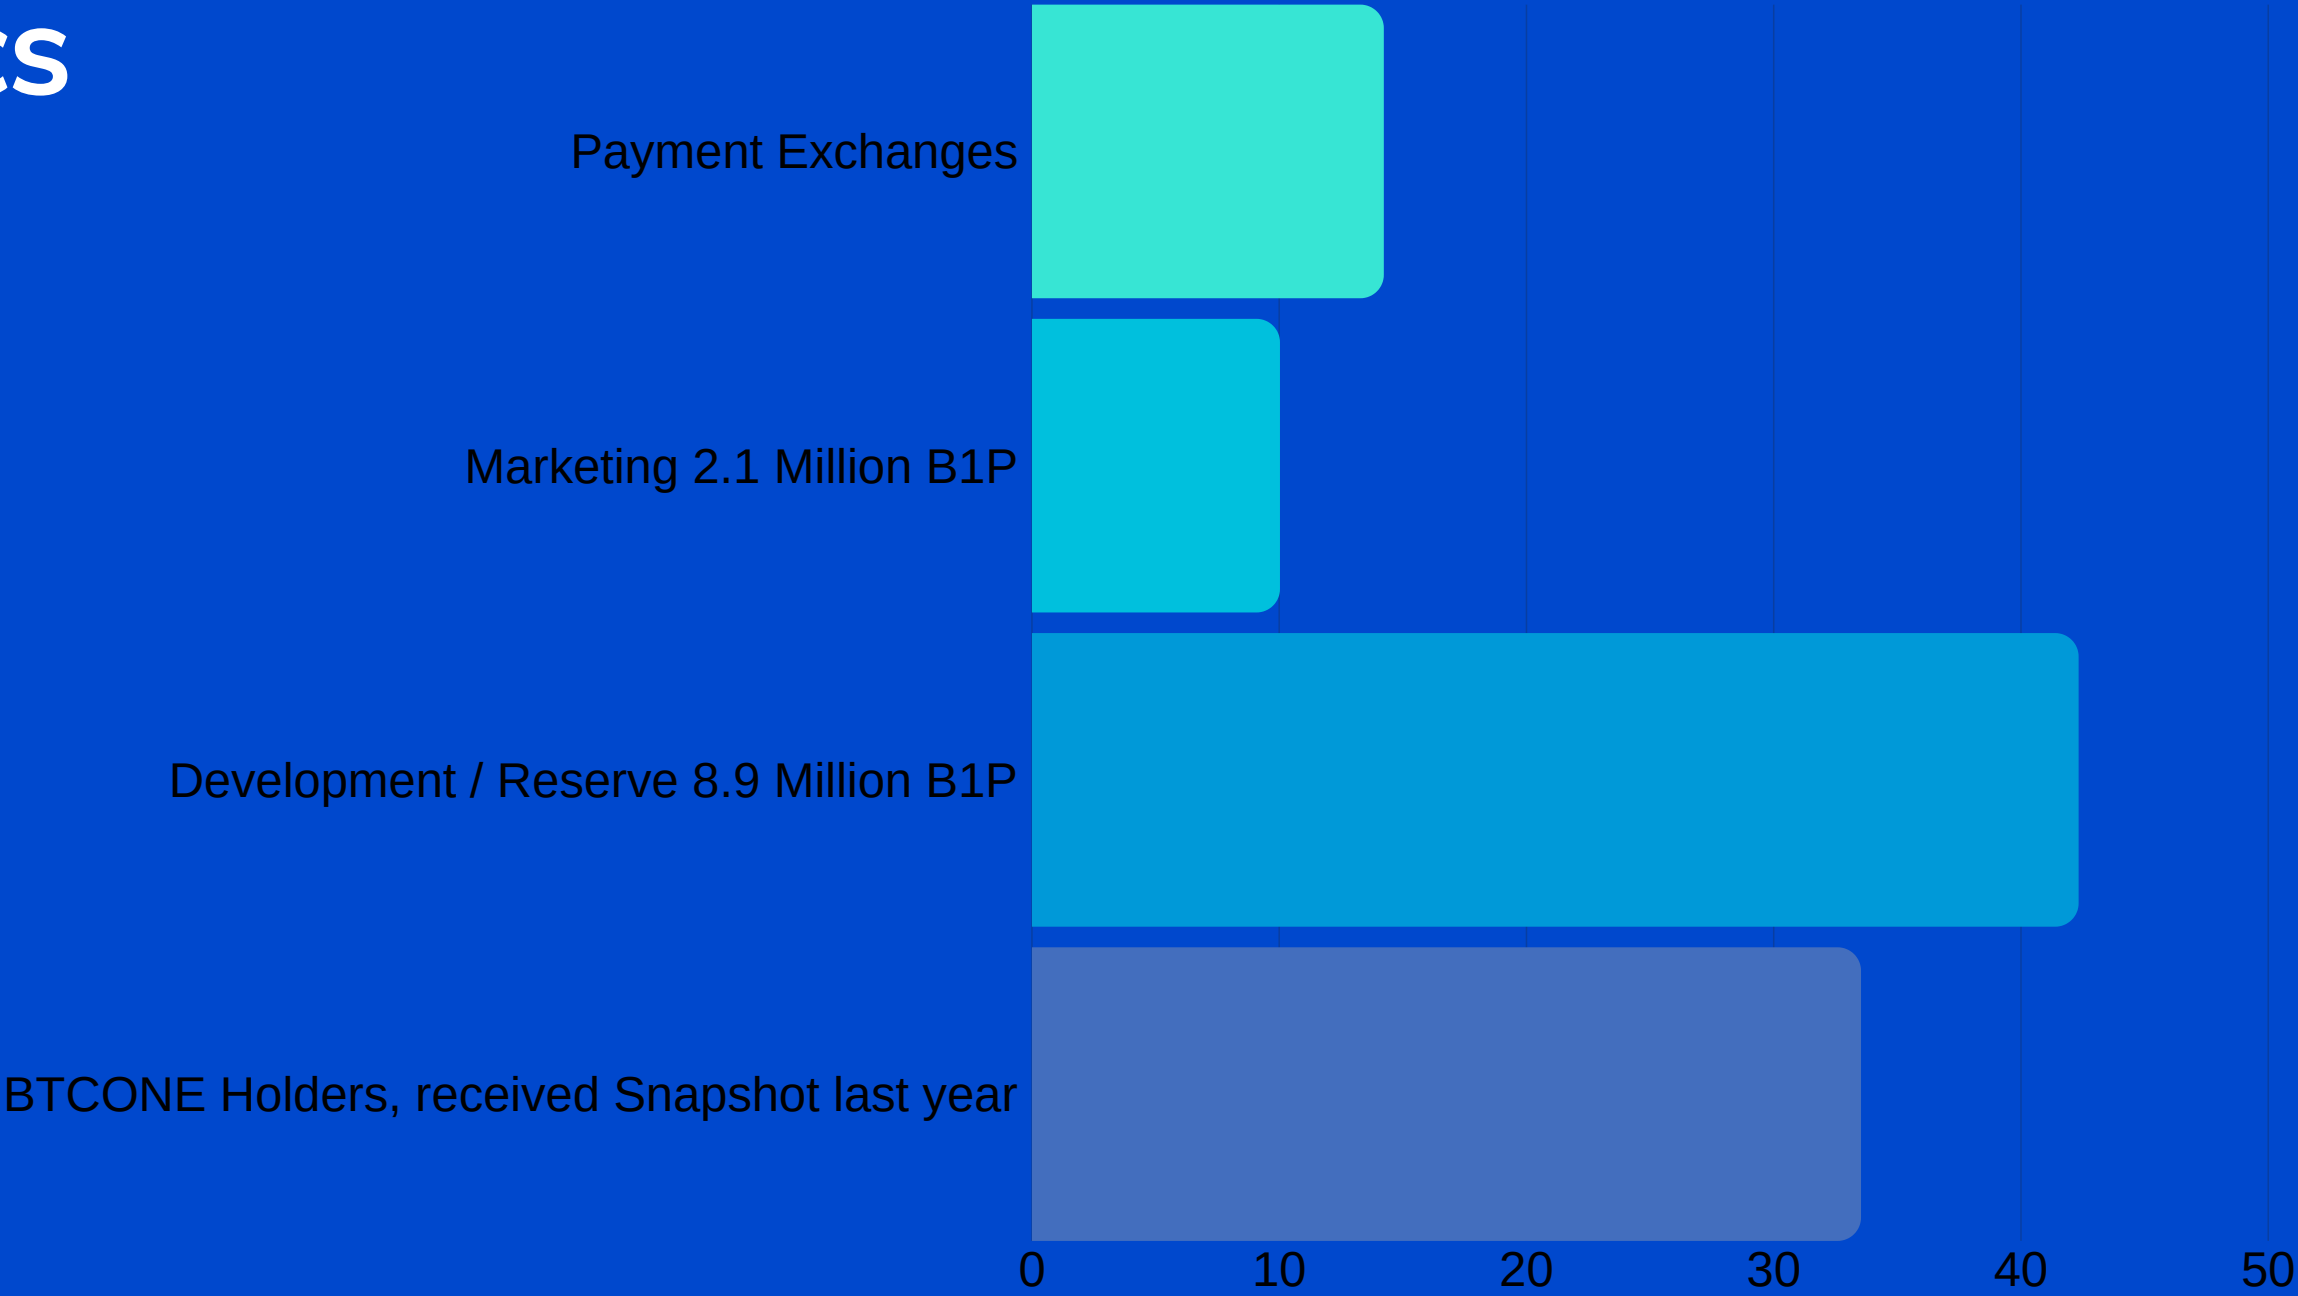

Next steps

Token E-Conomics

Overview of allocation
of the B1P Token.

Timing

We believe this is the time for crypto-mass adoption. We have a team of skilled blockchain developers who has worked with crypto since the early beginning.

Adoption

Today you can buy cars and houses with Bitcoin, you can even pay taxes some places.

Legal Framework

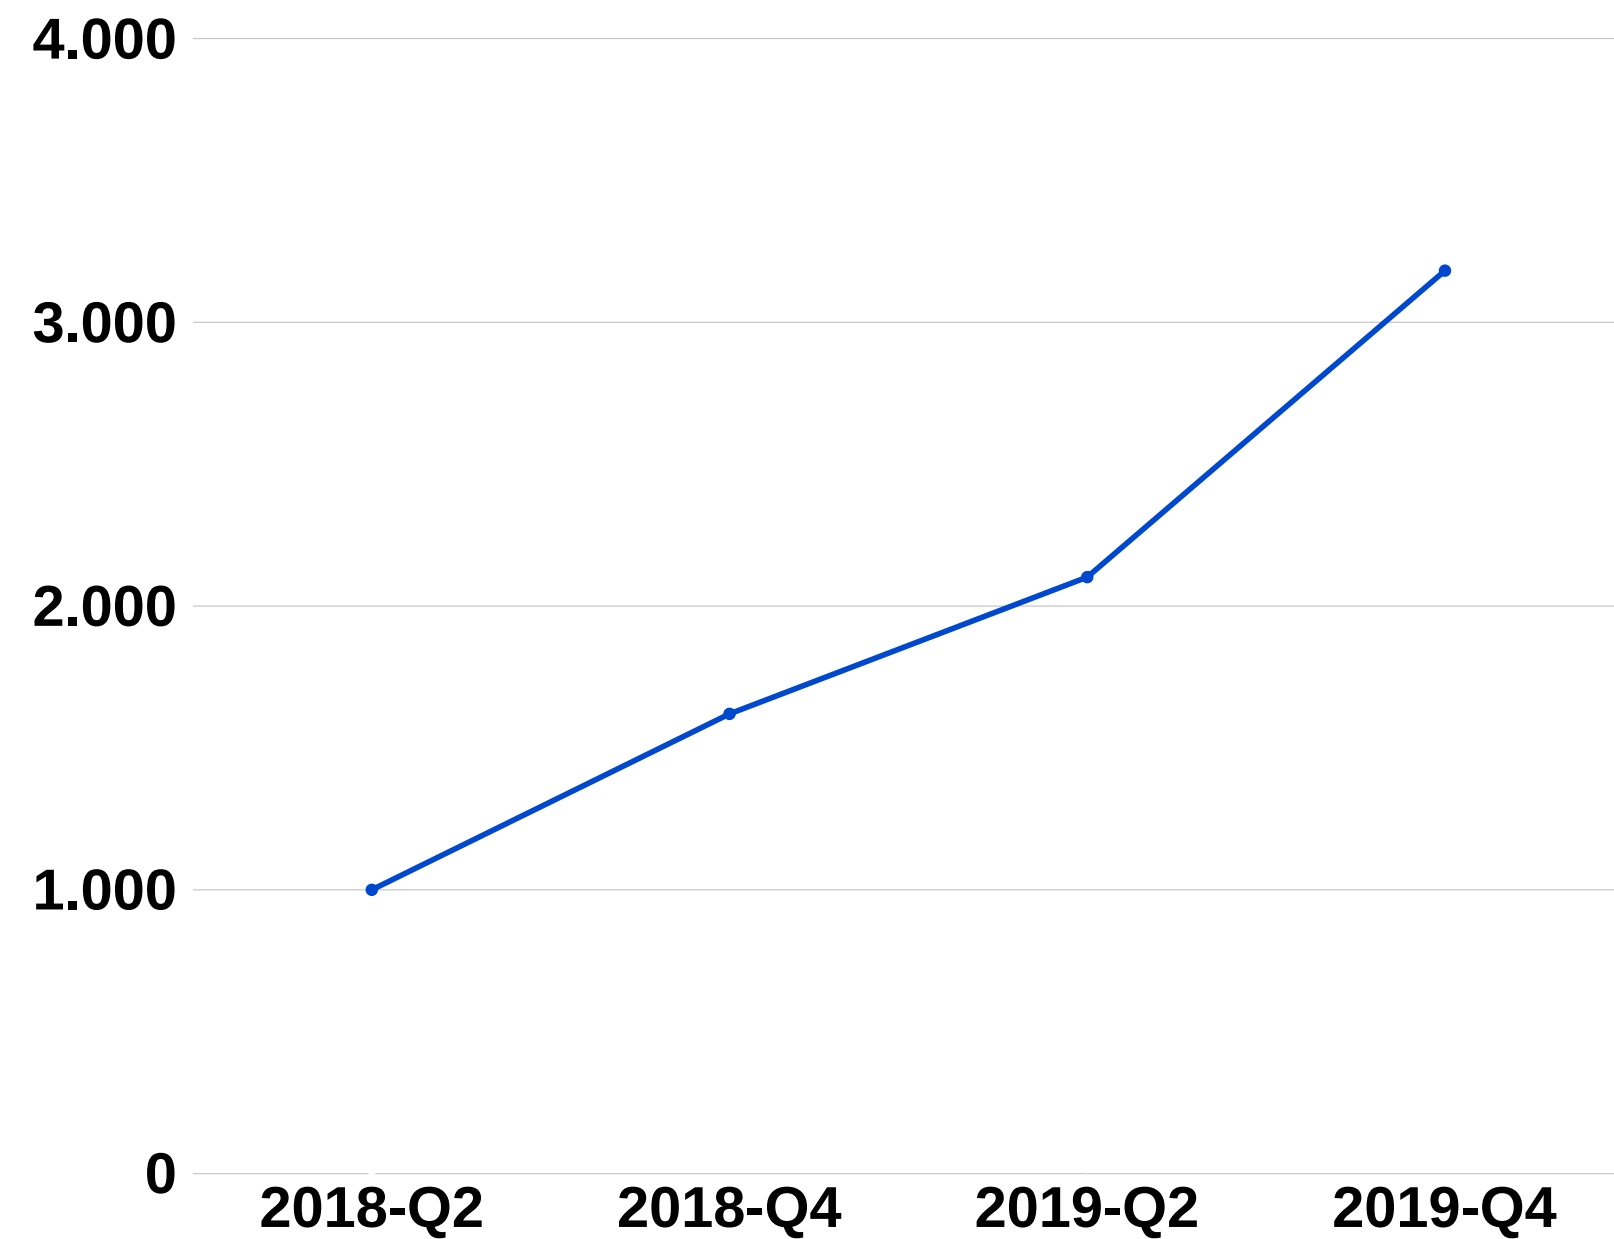

Many companies and countries are implementing blockchain as part of their strategy to optimize work-flow and to have an open directory where anyone can track the history of events.

Some countries are open to blockchain and cryptocurrencies and some are not.

Traction

We have seen more downloads of our APP in the latest months and we predict we will have more users in 2020, when we have support for more coins and tokens.

Size of the Market

B ONE PAYMENT ARE LOOKING TO EARN MONEY BY ADDING SERVICES RELATING TO OUR WALLET, THAT BE POS DEVICES, (RESTAURANTS CAN USE WHEN TAKING ORDERS). FURTHER B ONE PAYMENT IS EARNING MONEY BY HAVING A LISTING FEE ON EACH PROJECT BEING LISTED ON THE APP.

\$192.914.810.83

TOTAL MARKETCAP (CMC)

500,000 \$

POTENTIAL LISTING FEE IN 2020 ON OUR APP

50,000

USERBASE WE ARE TARGETING IN 2020

Competitive Advantages

Projects that are listed on the APP will do marketing of B ONE PAYMENT APP.

Listingfee can be paid in all coins listed on the APP and not just BTC like our competitors.

WHITEPAPER 1.0

Business / Revenue Model

WHITEPAPER 1.0

We earn money by having a listing fee and when offering products.

Such as a POS device for Restaurants, Shops etc. which will be launched in 2020.

We have calculated that listing-fee on B ONE PAYMENT APP, can have a net worth of 500,000 \$ in 2020.

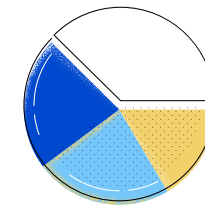

Behind the B ONE PAYMENT APP do we have the token called B1P, which is also supporting the ecosystem and will be launched on exchanges after we are done with our IEO.

Future Roadmap 2020

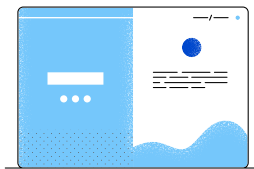

Q1 - 2020

MORE COINS BEING ADDED
PLUS BUILDING A BIGGER
COMMUNITY.

Q2 - 2020

APP SUPPORT FOR IOS AND
ETHEREUM AND TOKENS

Q3 - 2020

POS DEVICE FOR
RESTAURANTS AND SHOPS.

Q4 - 2020

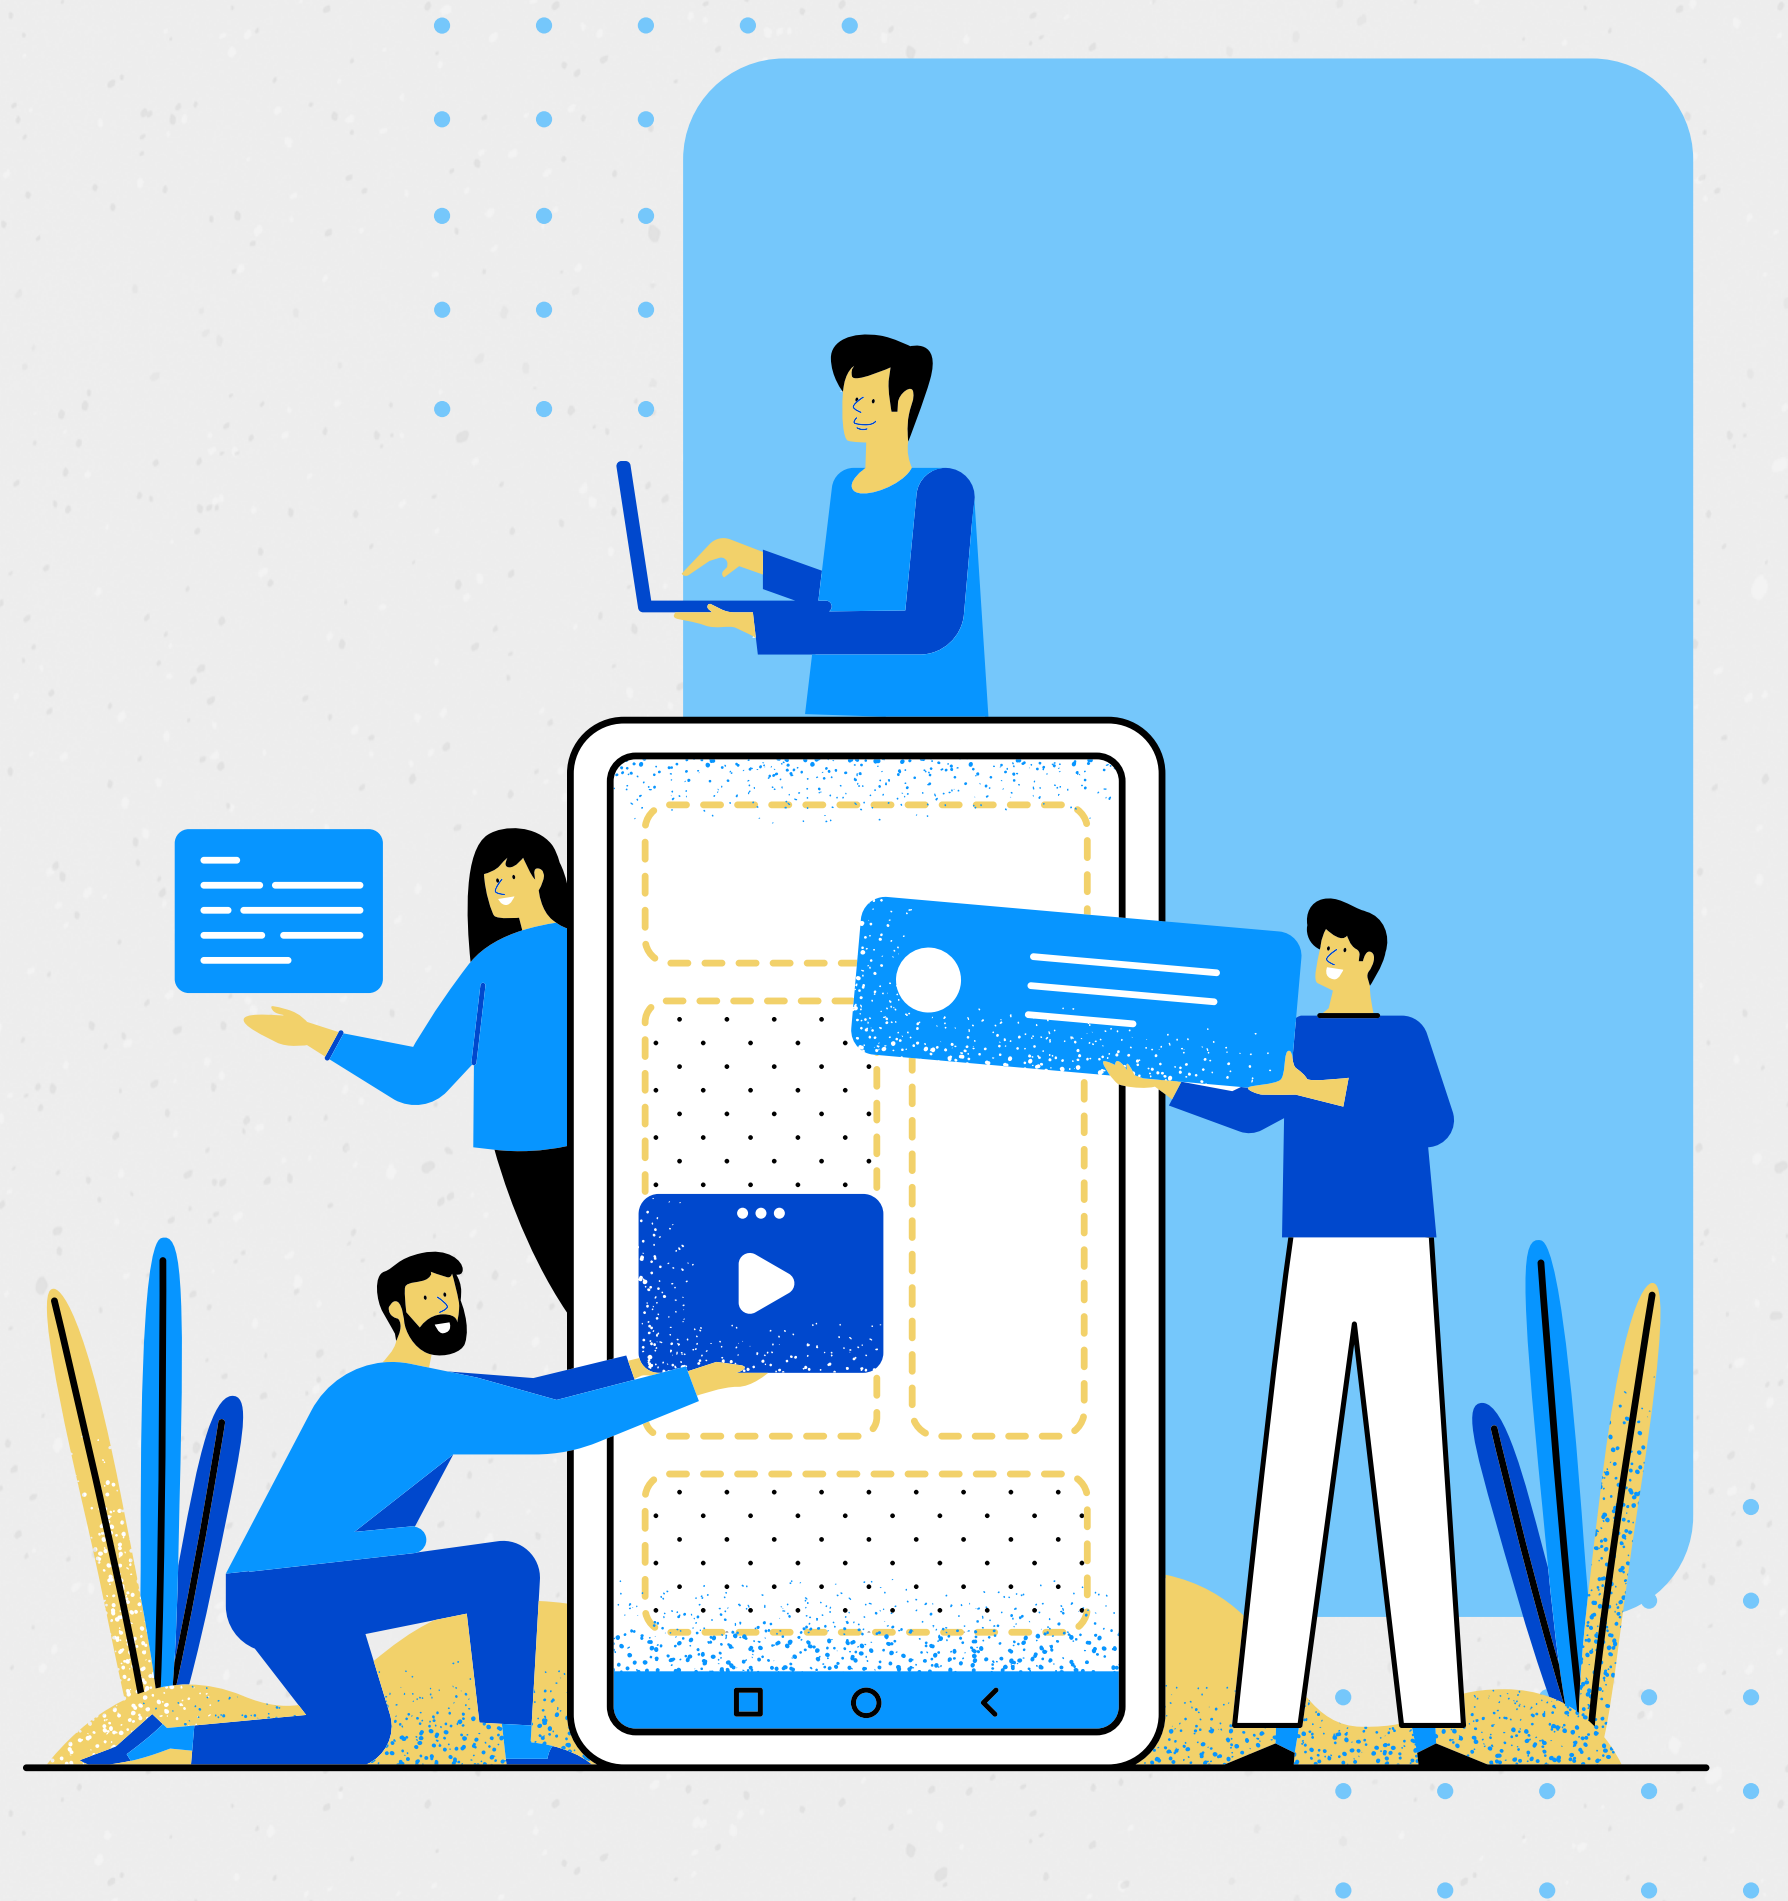

INTEGRATION OF MORE
BLOCKCHAINS.
