

# GYE NYAME – COIN – WHITE PAPER

GNC aims to become one of the leading  
ethereum based digital currency.

## About GNC

The dream of launching a crypto currency has been a yearlong dream of the founders . After exploring deep in the up and downs of the market of crypto currency and ICO's the companies vision and vision went through many talks and discussion for the past year and now came up with an exact idea .An idea which will persist over the years of market and bloom accordingly to the market conditions for longer potential. A proper analysis and investigation has been done before the launch which makes it understandable to the most common people in the community. the GYE NYAME COIN project is the first ever cryptocurrency that has a powerful Ghanaian name and symbol. The words "GYE NYAME " means ONLY GOD. Gye Nyame Coin is a smart asset developed in the decentralized Ethereum Blockchain , this Coin is an experimental and social nature. Gye Nyame Coin is a decentraized store of value that removes the limitation of fiat money with ever increasing value. GNC project is going to be the first ever cryptocurrency project that will pay it's token holders monthly.

## Mission & Vision

### MISSION

#### GNC

- The Gye Nyame Coin Project aim is to replenish the financial expectations of the masses which have been largely undermined or overlooked by the moderatory bodies and other cryptocurrency projects who claimed to surffise the need of the people but somehow fail to deliver. Due to this, Gye Nyame Coin (GNC) will alternatively serve as investments (Token holders receiving monthly profits) and a cryptocurrency (a digital currency) for the payment of goods and services.

### VISION

#### GNC

We the people of GNC project believe that the actual mission of cryptocurrency was to create a digital currency that that will help people to become financially stable in other to.

- To fight poverty globally
- To combat the genocide of wants and scarcity worldwides
