

Manage all your social networks in one place

LITEPAPER v1.0

2019 / 2020

"The reasonable man adapts himself to the world; the unreasonable man insists on trying to adapt the world to himself. Any progress therefore depends on the unreasonable man "

George Bernard Shaw

The Harcomia project white paper is subject to the regulations of the project website to which it is attached and is in no way liable to induce anyone to invest in commercial organizations and cryptocurrency markets.

The purpose of this document is to maintain a concise record of information on the Harcomia Project guideline, services and development in the Blockchain environment.

It does not guarantee the performance of the HCA cryptocurrency on trading markets in any form whatsoever and holds no promise of gain in this respect.

Harcomia judges investors and entrepreneurs of Blockchain projects aware of their investment and considers users of the various services offered by Harcomia as informed of the ins and outs.

I. A GOOD IMAGE IN THE BLOCKCHAIN ENVIRONMENT

We all agree that a good project with no communication will not necessarily succeed in being heard, while a poor project whose communication is constant, growing and quality will succeed in attracting the masses.

The majority of cryptographic projects seeing the day in recent months, do not have a sufficient life despite their sometimes interesting ideas.

Their breath is slowly dying for several reasons, but it is not always a question of scammer. The main reason is clearly a lack of communication and affirmation of the project's identity in front of its audience. Effective communication helps to maintain the vision and presence of the project, until the project has a real image.

We have also noticed that in addition to a lack of communication, the different entities do not always have the right practical and interesting tools to quickly develop their brand image from the beginning.

The primary interest for a project is, first and foremost, to achieve maximum impact for the least amount of time and money spent. This is the primary goal of Harcomia.

The image of projects supporting cryptographic currencies deserves to be listened to and many people do not know it yet, but dream of being conquered by new ideas and innovations.

In other words, cryptocurrencies and related projects often have an interest in maintaining their image. Harcomia hopes to provide a real solution to this by proposing an adapted and effective program to combat the darkness surrounding emerging works.

II. ALL THAT HARCOMIA CAN DO FOR YOU

Harcomia offers several clear and precise answers. For projects related to cryptocurrency, but also for all companies that like to save time and performance in the communication and development of their brand image. Here are the proposals and services that will be put in place by our team as time goes by.

1. HARCOMIA PLATFORM

An extremely comprehensive platform that centralizes all social media. Thanks to her, it is now useless to go to each media concerned and post the same news several times. In one click, it is possible to broadcast an idea on all media available, without effort or risk forgetting anything.

We know that manually creating social profiles for your sites is hard work. There is word of mouth marketing? Not relevant. Now, if you prefer to have people randomly. Follow your social profiles in different countries like Nigeria, Nepal or China ... it does not cost you much, but it is by no means effective and will never bring you good results.

Developing social monitoring to thousands of targeted followers can be very expensive. Harcomia offers something 100 times better than our manual methods and automates your social marketing for you!

At present, marketing gurus tell you to use so many social networks that it's easy to get lost in all that noise. One week, they tell you that one network is the best and the next week a different network. So what to do? Focus on one? Then, you lose money on others!

We created the ultimate solution; the Harcomia platform. Automatically get traffic from your social profiles 24/7, fully scalable and repeatable!

Programmable also in time, because it is important to maximize yours and that of our customers, it is essential to propose in advance content that will be published alone. The Harcomia platform is a real manageable information schedule from one place.

Better management of your messages and your network will improve and boost your communication at a crazy speed. You can now develop real actions on many social networks. Get massive amounts of social traffic for your projects.

2. MARKETING TEAM

A trusted marketing team is always welcome! Thus, our experts can support you and advise you in the development and evolution of projects. Case study, advice, planning, guidance and statistics, etc.

All you have to do is let our team get into action and Harcomia will automate your social media marketing campaigns so you can get the most out of them in a simple and hassle-free way.

They will also have to support the applicant and carry out marketing tasks for him. It should be noted that SEO SEO is also part of the services offered by this quality team. Now it's your turn to stand out from thousands of marketers and get the visibility you need!

Screened for their performance and confidence, they will be presented with their skills and will support relevant changes to the client project to steer it on a positive slope. This team may have to change in time if necessary in order to always stay to the satisfaction of the applicant.

Other Feature Coming ?

FACEBOOK ASSISTANCE IA

Support your Facebook subscribers and automatically answer 90% of their needs! We will offer a robot that will take care of it even before you connect to the account, bringing your customer engagement to a whole new level!

Made possible by advanced programming upstream, prefab replicas address the problems faced by users and are immediately available. These same answers, will be published and renewed eternally for the provider, thus following the new problems and the evolution of the ecosystem concerned.

ONLINE TRAINING

We will also offer in time some relevant and inexpensive training, with video support, which greatly benefit the marketing action plans. Better management of your networks and your communication will improve and boost your messages at a crazy speed.

Although Harcomia is easy to use, we wanted 100% effective techniques to be accessible to everyone and you had all the keys to success !

III. GUARANTEED OF THE EFFICIENCY OF OUR SERVICES

Everything that Harcomia offers is guaranteed by our website, itself subject to its own conditions of use. We provide regular follow-up and support based on the aspirations and needs of each user.

An evaluation followed by comments will be made available at the end of each service or use of the platform via the subscription concerned. Thus we will post many opinions regarding the quality of our work.

The costs of the various services explicitly indicated on the website must be affordable at all times for each project, whether advanced or beginner, we guarantee assistance to the height of the situation of each.

IV. "HCA", THE NEW MOTTO FOR HARCOMIA

The Harcomia (HCA) piece exists as the Harcomia team wants to take part in the cryptocurrency adventure by developing a particular piece too.

In addition to adding fundamental value to the project, faced with an extraordinary market, Harcomia must participate by integrating the different currency cryptocurrency brokers, its own currency.

Being a marketing announcer, it is important for Harcomia to have an exclusive community that supports our project and makes a real contribution to our structure thanks to the master node systems, now popular in different parts.

In addition to enriching the prospects of the project in the blockchain ecosystem, this new currency will be used to feed the various services offered by Harcomia, including its comprehensive marketing platform, granting bonuses to users. The different forms of use will be stated and listed as the project grows.

Harcomia also targets enthusiasm crypto community. People can directly pay in HCA, and also in FIAT. However, Harcomia's objective is to exchange 80% of the value of payments received in FIAT and others currency to HCA. This action will bring a more significant in the exchanges and will encourage all the more the use of our motto. The remaining 20% will be used to pay the company's expenses.

Finally, the piece HCA will integrate into the cryptosystem, allowing many partnerships and community actions. Its very low emission rate will guarantee a store of value ensuring the good development of our services in the blockchain environment.

Specificities Of HCA Cryptocurrency

Name	Harcomia
Ticket	HCA
Algorithm	Xevan
Type	POS/Masternode
Total	5 000 000
