Platform Lico exchange

LICO Exchange is a commission-free,

trustless futures exchange

for trading digital currency prices.

When you remove the constraints of transaction fees you get highly liquid markets

because traders engage in high volume, single tick trading strategies that are not

viable on other exchanges due to commissions. Liquidity is further enhanced by

the presence of automated market makers, funded with 15% of the total supply of

XLIC, that are programmed to break even whilst keeping spreads tight at all times,

even in volatile market conditions.

In this platform For Currency Exchanges, there are no transaction fees going

forward. Traders can buy & sell at any time under any circumstances and pay 0%

commission on all trades forever.

Benefits and Features

- Complete Privacy
- Zero Trading Fees
- One Click Ladder Trading Interface
- Decentralized Account Balances
- Volatility: Provides diversification to better manage volatility
- Decentralized smart by Blockchain
- Fast: Developed on Ethereum blockchain allows for instant transfers

Lico XLIC E-wallet Security

Lico XLIC is built on top of the Ethereum Blockchain by the use of Smart

Contract; and is compliant with the ERC20 Token Standard.

There will be three levels of security to be implemented into the Lico XLIC

Wallet:

This will be used for authentication and information exchange for when the Token Holders are logged into the wallet.

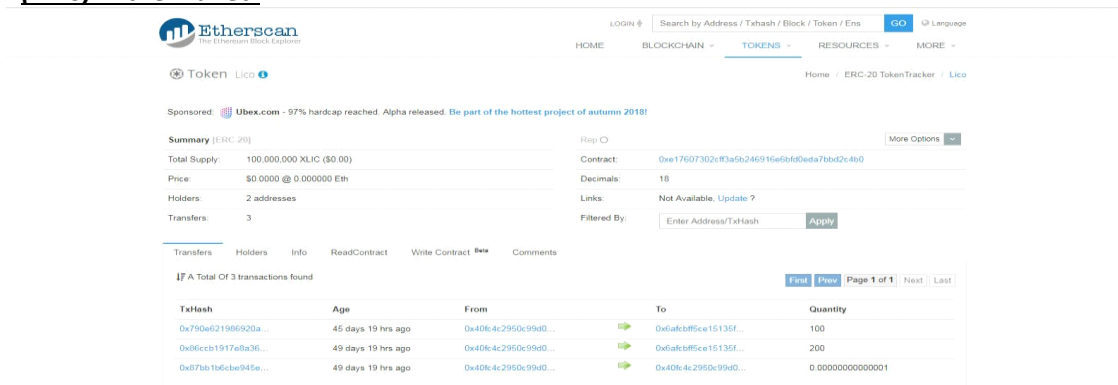

Multi Factor Authentication

The wallet will have a Two-Factor Authentication, which is the extra layer of security also known as “multi factor authentication” to prevent the risk of fraud.

Lico XLIC wallet holders can use the Google Authenticator Application to generate a unique code when signing into the wallet

Blockchain Contract-based Authen

The APIs on the Lico XLIC wallet such as “Deposit” “Buy” functions will be secured by Blockchain Contract-based Authen. There will be a contract and Blockchain code in-placed to prevent accessing the back-end of these functions (APIs) in the wallet.
