
PROMETEO PROJECT TOKEN

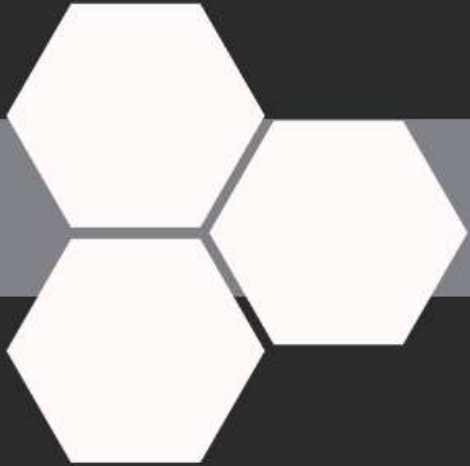

UNLOCKING HUMAN
POTENCIAL

Mission

Our Mission is to help REDUCE the GAP between heavily financed companies with NO SOCIAL VALUE and HIGH SOCIAL VALUE Projects with little to no capital by distributing and add market value to a digital asset we designed for this purpose .

UNLOCKING HUMAN
POTENCIAL

Vision

We envision a future where individuals that are engaged in social value activities are incentivized and economically empowered .

Value Proposition

The Prometeo Project members propose the PROMETEO (PMT) as a token linked to Tangible assets such as Real Estate to drive the value of the Token not only by the day to day market determination but also to a traceable and reliable real estate patrimony which indirectly and automatically add value to the mission and the token.

In this way the members anticipate to create an exponential growth in terms of value driven by :

- The growth of the intrinsic value of the assets over time
- The growth of the adoption and use cases of the Token
- The growth of the social perspective and understanding of our mission
- The growth of value driven by the natural scarcity and anti inflationary nature of the supply
