1.INTRODUCTION TO YEARN2.FINANCE

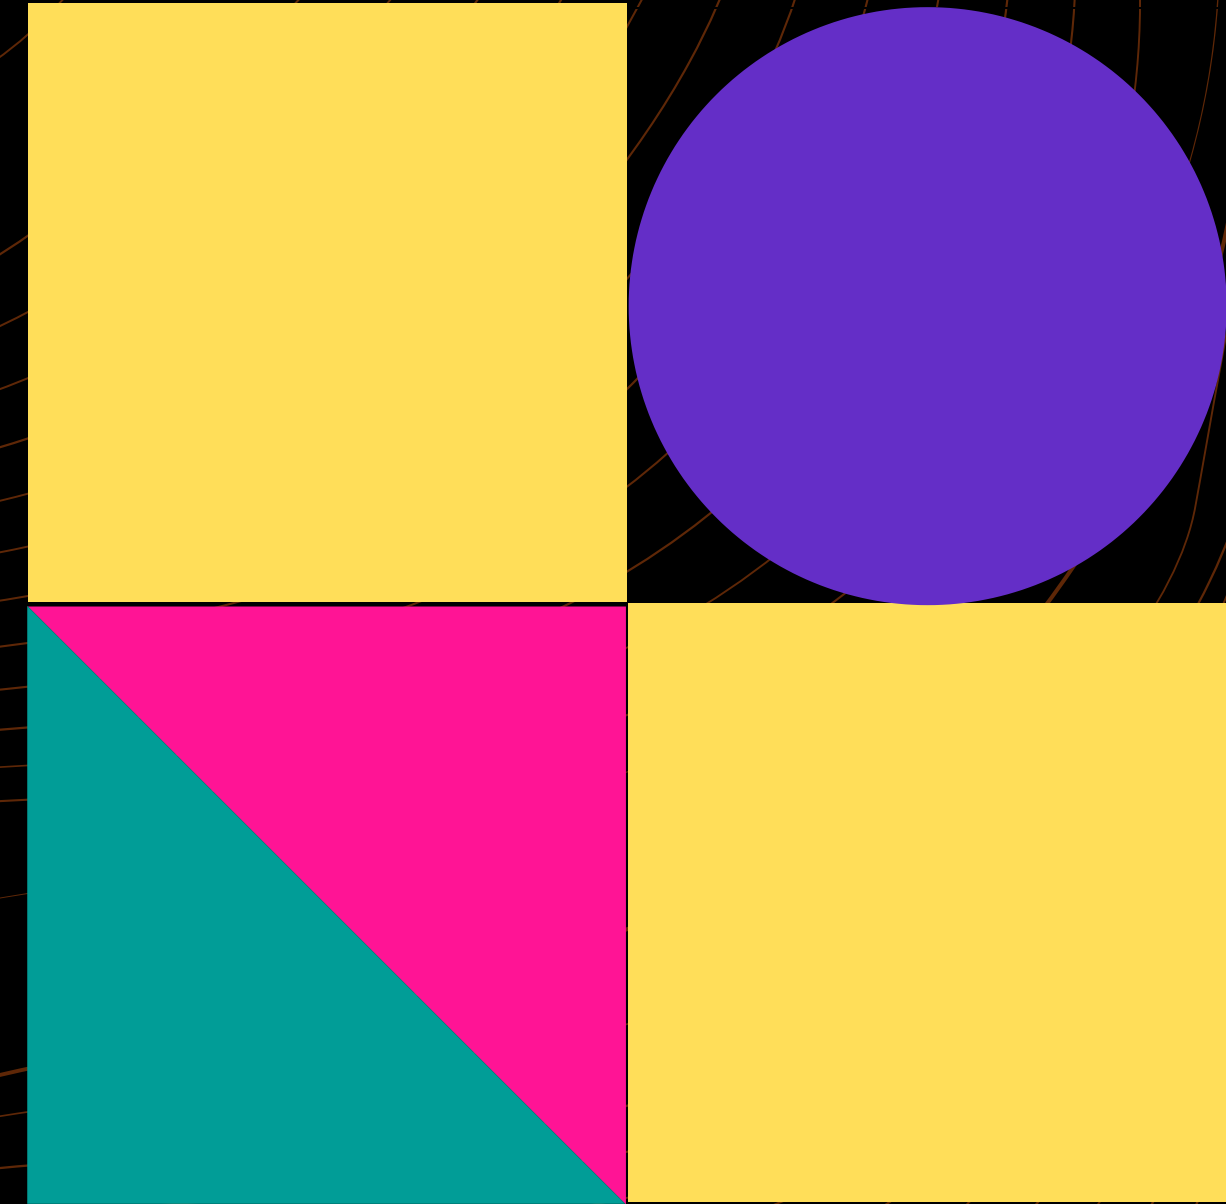

YFI2 is a community-centered DeFi-project by the people, for the people. We follow strategy of some famous finance tokens like YFI and ZZZ.

The decisions and actions of YFI2 will be made by its members and community to assure equity and fairness for all. YFI2 followed ZZZ as a new form of governance system. A think-tank. A place where innovation, entrepreneurship, and technological advancements are the priority, creating a much needed utility focus to the blockchain space. The value of YFI2 is determined by the contribution and innovation of the community as a whole.
